### HOUSING

Own  Live with parents  Rent: I have landlord ok  Rent: I don't have landlord ok yet

If you move, locally, or out of state/country, would you plan to bring your pets with you?  Yes  No

How will you "rabbit-proof" your home? \_\_\_\_\_

### MY FAMILY

Other members of your household, including children:

Names \_\_\_\_\_ Ages \_\_\_\_\_

Who will be the rabbit's primary caregiver?  Adopter  Family/Household  Child

Is everyone in the family aware of a rabbit coming into the home?  Yes  Not Yet

Rabbits live 8-12 years (and occasionally we meet one as old as 14!).

- *It is normal for children's interests to change over this period and be busy with school and activities.*
- *A now young child may move out/go to college, and the rabbit will still be with you.*
- *You may choose to adopt other pets, like a dog, and need to manage a multi-species household.*
- *You may add a family member to your household, whether having a baby, or taking in a relative.*
- *You may move to a rented home, and your choices may be limited by pet-friendly rental options.*

**I am comfortable making a commitment to care for my rabbit for their lifetime.**  Yes  Not Yet
