Making important decisions easy!

Why Us?

Your health is your most important asset. Finding the right insurance plan to support your well-being is an important decision. And navigating the many health insurance options is daunting. That's why you need an agent who cares for you and makes these important decisions easy.

We offer:

- no-cost, unbiased, compassionate guidance
- every type of coverage option
- year-round post-enrollment support

No-cost Insurance Services

for current or future clients

1 Applying for Medicare

Medicare is complicated, signing up is too. Let us help you navigate the process.

We'll answer questions like:

- When should I sign up for Medicare?
- Should I delay Social Security benefits?
- Should I keep group insurance, or start Medicare when working past 65?

2 Applying For Assistance

If money is tight, we know how to help.

Benefits of the Medicare Savings Program and Medicaid include:

- Part B premium paid by the state
- Low Income Subsidy ("Extra Help")
- No Part D deductible
- Drug copays extremely low
- All covered healthcare is $0 (*QMB and full Medicaid only*)
- Late enrollment penalty is waived

3 Insurance Consultations

Your health, plan benefits, and regulations change annually.

We work closely with you to find coverage that fits your specific needs.

Best of all, instead of waiting on hold at 800 for help, you have a personal, local expert available!

4 Underwritten & Birthday Rule Medigap Changes

Medigap premiums are designed to increase, but you have options.

- Medigap benefits are standardized
- Some states have a "birthday rule" (allows changes w/out underwriting)
- Plan F (closed to newly eligible beneficiaries) has an aging risk pool that contributes to higher premiums

WHEN SHOULD YOU CLAIM SOCIAL SECURITY?

This decision affects your retirement income for the rest of your life.

As a Registered Social Security Analyst®, Ben analyzes:*

claiming age • spousal & survivor benefits • taxation • working in retirement & more

**A fee applies to a comprehensive Social Security analysis*
