Daily Activities

We are more than just care – your children will never have a reason to be bored when they are at Oatley OOSH Vacation Care Program. In addition to the activity of the day, children can also participate in the following:

A Cooking Program

Healthy eating is not just fruit and veggies every day – it involves learning how to tell if things are good for you and gaining new skills!

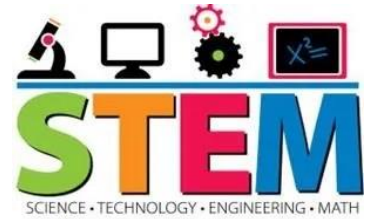

Our cooking program is more than just treats – each day our program will have a recipe that children can follow to help make a healthy snack or even afternoon tea

Something Messy

Holidays are a time to let your hair down and stress less about ... mess! This is a chance for children to get messy with friends by playing in sand, dirt, mud, or other creative ways to make a mess! We suggest bringing a change of clothes, and not wearing your Sunday best!

The Science Lab

An opportunity for children to explore the world of Science, Technology, Engineering, and Mathematics – from invisible ink to exploding watermelons the lab is open and we are prepared to SCIENCE!

Rough and Tumble Play

There is a time and place for rough and tumble play.

The place? Here! The time? Now!

This program is designed to allow children to engage in player vs player challenges – it could be sock wrestling, archery, gladiator battles, all in a staff facilitated group game environment.

Movies!

It's good to kick back and relax at the end of a highly charged, extremely active day. Each afternoon a movie will be available for children to take a break and enjoy.

Oatley Youth

At Oatley OOSH we recognise that our older kids sometimes need something more than the regular, run of the mill school holiday program.

Got a child in Year 5 or Year 6? We'll have something special for them to do each day – speak to us when booking in!
