NEWS AND UPDATES

Pool Equipment Tips

Your Pool pump is the heart of your swimming pool's circulation system. The pool pump pulls water in and then pushes it out through the filter, which allows debris and bacteria to be captured. During the winter you don't need to run your pool pump as long. Depending on the size of your pool we recommend your pump run at least 4-6 hours a day during the fall and winter months. A good rule of thumb would be for every 10 degrees of outdoor temperature, run your pump for one hour.

If the average temperature outside is 60 degrees run pump for 6 hours

New Invoices: We have recently updated our software

Starting on January 1st, 2023, we will NOT be including a Statement with Invoices. There will be a brief account summary that includes the prior month at the top of your invoice and the details of the Invoice will be listed below that. If you need a historical statement, please contact the office and we will be happy to send it to you.

(Please see new Invoice example on the back)

IMPORTANT SERVICE NOTICE:

**EFFECTIVE IMMEDIATELY
Accounts that are 45 days past due will have services suspended until account balance is paid in full.
Accounts that are 60 days past due will be sent to collections.**

BILLING LATE FEES

Invoices are sent on the 1st of every month and are DUE on the 16th. We bill for services a month ahead and chemical usage for the month prior.

Starting Feb 1, 2023 Accounts that are not paid by the 25th will receive an automatic \$10.00 Late Fee

HELP US HELP YOU!

MAINTAIN THE LIFE OF YOUR POOL AND POTENTIALLY SAVE ON CHEMICAL COSTS BY DRAINING YOUR POOL ANNUALLY

Annual pool drains can save you money in the long run! Circulating clean water makes it safe, helps with buildup of chemicals, debris and extends the lifetime of your pool! Please contact the office if you would like to schedule.
