

PARTIOT PRIDE POOL CLEANING DBA PAULSON POOL CLEANERS | JANUARY 2024 THE QUARTERLY WRAP-UP

HAPPY NEW YEAR!!!

We now offer Dustless Soda Blasting!

We use mild-abrasive Kieserite material that is used with a water stream to clean oil, calcium, algae and other grime from your tiles.

This is an eco friendly method that does not emit toxic fumes or dust and has no impact on the water's chemical balance.

If you are interested in getting Soda-Blasting done please call our office for more information

Looking for an Update?

We can replace almost every part of your pool equipment; whether it be a whole new Pump/Filter to Valves/Orings, we got you covered!

Please contact our office for equipment upgrades

Protecting your equipment can improve the lifespan of the equipment! Sun shades or screens have saved customers on repairs and maintenance

Pool Drains & Filter Cleans

The pool filter collects everything that goes into your pool water. This includes dirt, oils, minerals, contaminants and more. It also helps circulate the water for healthier pool water. To avoid a clogged or low pressure pool it is important to clean it regularly. Along with the Filter, the pool water itself can accumulate high levels of CYA, TDS and Calcium hardness and draining can save you on chemical cost during the summer months.

Please contact our office for Pool Drains/Filter Cleans
