HIGH RENTAL YIELDS

With the leading vacation rental suppliers of the South East Cyprus.

Real estate industry experts are in no doubt that the property market in Cyprus is experiencing a welcome upturn. Despite the difficulties of the past, the market is beginning to experience new buoyancy and this is clearly reflected in the confidence of leading developers such as Giovani Group.

With so many projects already under construction and numerous completed builds, it is abundantly clear that the industry is on the verge of a new growth spurt. While no one can argue that prices did fall in previous years, this has only served to create some great opportunities for any astute investors who are prepared to grasp them.

Investing in buy-to-let property in Cyprus, whether as a means to finance a personal holiday home purchase or as an intentional investment strategy, now makes extremely sound sense. Apart from the obvious and hectic expansion in the Island's tourism industry.

EU membership can only be good news for property buyers and investors in Cyprus and the country's expedient recovery from its financial difficulties speak for themselves. Through creating a more stable financial environment and ushering in positive reforms within the real estate industry, EU membership is certain to be a major contributing factor in this continuously improving sector.

Concerning holiday locations, Cyprus has a huge advantage over the competition, where EU visitors are concerned both in terms of freedom of access and European standards. The warm climate, friendly people and low crime, all contribute towards making our country one of the most attractive holiday destinations.
