

Compliance Made Easy & Affordable

Introducing a new and improved FleetLocate that manages any combination of drivers, vehicles, assets – and ensures compliance with federal regulations like Hours of Service (HOS) and Driver Vehicle Inspection Reporting (DVIR) – within the same friendly, easy-to-use application fleets love. FleetLocate Compliance – the Electronic Logging Device (ELD) solution that's the right fit at the right price.

Making the Complicated Uncomplicated

With FleetLocate Compliance, there's no need to deploy a disparate solution to your fleet and asset managers just to satisfy the ELD mandate. When you adopt FleetLocate Compliance, we simply activate a new tab within your existing FleetLocate desktop application that displays a handy summary that covers everything you need to know about your driver community, such as:

- Compliance notifications, including when a driver has approved daily logs, drives a vehicle with a safety defect, and more
- Driver status, including last known location, drive time remaining, time until break, and on duty time remaining
- Daily log information, such as hours logged, telephone number, and detailed log reports
- Potential violations, such as drivers who haven't signed logbooks, shows unlogged driving time, or skipped a DVIR inspection

See Driver Status At-A-Glance

Is Driver A available to take on a new assignment? How long before Driver B needs to take a scheduled break? Is Driver C actively driving or waiting to unload at a customer location? All of these statuses and more can be viewed with a simple Driver Status display:

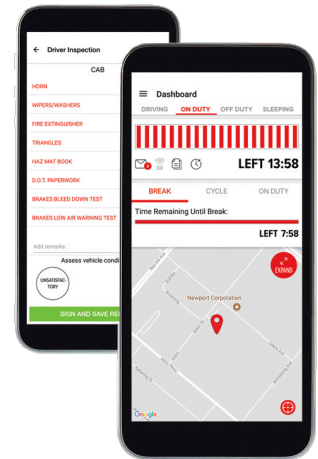

- Driver name
- Last known location
- Vehicle
- Drive time remaining
- Time until break
- On duty time remaining
- Current status
- Engine status

Full Name	Last Known Location	Unit	Drive Time Remaining	Time Until Break	On Duty Time Remaining	Current Status	Engine Status	Last Updated
Bruce Banner	Texas, USA	5	9:50	7:49	13:48	DRIVING	IDLE	09/18/2017 01:25 PM
Steven Rogers	Union, CA	TRK-2	0:00	0:00	0:45	ON DUTY	ON	09/18/2017 01:25 PM
Matthew Mundock	Irwin, CA	18	7:49	0:45	9:22	DRIVING	OFF	09/18/2017 01:25 PM

Supporting Drivers with a Simple, Attractive Mobile App

No proprietary driver devices here. Whether your fleet prefers to outfit drivers with a smartphone, tablet, or rugged handheld, FleetLocate Compliance's "bring your own device" technology lets you negotiate discounts through your preferred network carrier or communications provider to make sure you're getting exactly what you want at the best possible price. And the FleetLocate Connect app provides an approachable, easy means of introducing drivers to electronic logging.

High Tech, Flexible Telematics Delivery

FleetLocate Compliance is driven by the next generation LTE telematics gateway, the FL1. It offers flexible installation options, and comes with a purpose-built vehicle interface that accommodates both light and heavy duty vehicles.

- LTE telematics device
- Flexible installation options
- Support for light and heavy duty vehicles
