

Community Service Programs 2020-2022

Realignment of 2018-2020 Projects

The “intent” of a project should be the primary factor in determining where it is reported at the state level and detailed in a GFWC Award Entry. Here is an example of attributing a project by its intent:

An art therapy project that emphasizes the therapeutic value of art: **Arts and Culture**

An art therapy project to aid Veterans with PTSD: **Civic Engagement and Outreach**

An animal-themed art therapy fundraiser to benefit endangered animals: **Environment**

An art therapy project that helps special needs children focus attention: **Education and Libraries**

An art therapy project to aid those with addiction or depression: **Health and Wellness**

In general, 2018-2020 Club Manual projects align with these 2020-2022 Community Service Programs:
