

Meet the Characters

Angie Anglerfish, or Mrs. Angler, is the mother of 'Red'. She is a traditionalist, which means she tries to raise her daughter in the old ways of being an anglerfish- teaching her how to hunt, how to hide well & how to catch prey. Fun facts? Mrs. Angler is a teacher. She likes to relax with a good book & a cup of tea, or an early morning swim through Kelp Forest with her daughter.

Muriel Belle Anglerfish, or Red Angler, also known as Belle by her mom, is a shy vegan bookworm. She plays along *most* of the time when her mother trains her. However, she refuses to eat any live food which she might catch in her mouth and prefers seaweed salad over fish or shrimp. Red is the middle child in 300,000 siblings but she's the only one who reads and won't eat meat. Fun fact? Red's color, light, lipstick, necklace and bow can change color as she swims. Red also likes to use her changing lights to play games with her friends. Ollie is her best friend.

Amy Axolotl is a super smart Mexican water salamander. Amy is a few years younger than the group of friends she ends up with. She was born in Lake Chalco, Mexico City, in Mexico. One day Amy woke up in the Gulf of Mexico. Amy swam up the coast of the Atlantic Ocean to the Northeast where Mrs. Angler & Red found her and adopted her. Fun fact? Amy can speak English, Spanish and the old Mexican language of Nahuatl. Her ability to regrow her limbs makes her a hit on Halloween!

Oliver Betta, or Ollie, is an electric betta eel. He is the youngest of 400 siblings! Ollie may look large sometimes but that's due, in part, to his growing bravery throughout their travels- he's actually about 7 inches long, much smaller than Red in comparison. Fun fact? Ollie's fins can change colors as he swims. He also has electricity that turns on when he needs to be brave (from his mom).
