UPDATES:

Jesus grew in power. Jesus is God within the meaning of this description. Jesus is now the above as of 11/04/2020.

Yahweh remains aloof and pompous as ever, and not described accurately by the above 100% of the time.

God is.. and God is not.. was an inspiring devotional assignment given by Joanne Heinrich, Lehigh County Prison 1A DARE Program Coordinator (Allentown, PA), at the time of James A. Blatt's incarceration and voluntary participation in this prison program. Blatt found this mighty helpful as part of his early recovery efforts to identify and define in Language he Understood what God is to him and is not to him on Blatt's own terms of conscious contact, which is vital to Early Recovery and Lifelong Recovery. In practice, God can be anything, but that is first learned in middle-late to late recovery (beyond 2.5 years of total abstinence, to beyond 5 years of total abstinence, respectively, for the healthiest possible understanding of God in ongoing conscious contact). In broad terms of understanding God, the above is Accurate and Approved [] to define and understand God, who is Jesus Christ!

That is all.
