Richard M. Nixon & George H.W. Bush
c/o 7-Up¹

To 7-Up,

Get this out to the true Nixon & the true H.W.!

If Bill Gates weren't operating under Canonical Immunity to develop and evolve transhumanism, Earth would've been taken under totally by [] Nixon & H.W.'s policies destroying all that's Good on God's Green Earth. Nixon & H.W. should've promoted policies that encourage and incentivize the development of TRANSISTORS and other transhuman devices, that can process and store data in wearable devices like GOOGLE GLASS in real-time recording and capturing and intercepting of signals, audiovisual vistas, and other media, from air!

When we can write 50-100 Mbps [] of information with Google Glass we can record through apparent ordinary Glasses Lenses anything we can look at and store it automatically in the cloud through Electro Magnetic Radiation ... which is what the first article proposed gets at². This is the next step, I believe, from the classified X Ray vision glasses, currently available to Federal Agents.

In deciding Celsius, we will have to advance technology while retaining all power in the hands of about 6 people on a 3-6 billion person planet with multiple countries.

I've got bad news for 7-up. Monster Blue Lo-Carb is an alien science energy drink that in abuse quantities of 4 per day for over a decade in the ca. 16 years or older aged body, it is known to take 25 years off your life. Thus, the average male who dies at 76 years old would die at 51 after drinking 4 cans of Monster Blue a day for decades. However, the 7-up venom brand is known to James A. Blatt to put the human body into toxic kidney shock and kill all who drink 2 or more a day inside about 2 years with chronic or acute renal failure.

I will be publishing³ the 7-up Venom brand, is known to kill in about 2 years in abuse quantities, considered 4 a day, which is an universally indisputable certainty and easily scientifically proven. 7-Up Venom is a true danger and the United States demands you take action to rectify this.

Respectfully yours,

James A. Blatt
Vice President of the USA
Hon. Major General USMC

Postscript: **transhumanism**

[tranz'hyōōməniz̄m]
NOUN

1. the belief or theory that the human race can evolve beyond its current physical and mental limitations, especially by means of science and technology.

Notes:

In alien science, we can record audiovisual vistas and media from air! Exactly like being in telepathic communication...Recorded to the cloud from any ordinary looking pair of glasses, with or without x-ray vision being recorded.

Transhumanism devices like Google Glass, Microsoft's DNA, or Reptilian Transistors, (or a federal agent's X-Ray spectacles) take us beyond our human limitations with wearable science and technology, which is pure transhumanism.

James A. Blatt admits in the exact original letter he made a mistake in differentiation of MB and Mbps. James A. Blatt knows the True Nixon & the True H.W. recognized and knew it as de minimis. James A. Blatt corrected this mistake in this published letter to 7-up, submitted at footnote 1 above 12/03/2021.
