Public Court Document quoting “synthetic telepathy” as the reason for award of Social Security Disability Benefits, which would not be heard as a fact at any Court in the United States at this time except as a “plausible” fact on the Aschcroft v. Iqbal pleading standard; in support of Blatt v. Google, the true original filing of which this substantiates as wholly and entirely plausible and I reaffirm again, as then under penalty of perjury, was objectively, verifiably, provably, entirely true, as alleged by me James A. Blatt.

Should you be disabled as a result of being telepathically abused beyond help, This Publication from the United States Supreme Court has been saved in the Internet Archive under <https://RedressGrievance.org/s> page as well as to the best of my ability, as an official Supreme Court of the United States .gov website archive! Quoting it, pursuant to Iqbal, guarantees Disability Benefits, and I know it!

Until God Almighty decides to help me, this is my own winning statement for my own SSI Disability Claim! With or without more, disability provable! I was born with a disability not detectable until after birth, also, however....

Good Luck My Reader,

James A. Blatt

Honorary Major General United States Marine Corps,

Vice President of the United States of America,

Postscript: The story of my life to date, 1.28.2022 is I am Stopped by God and God Alone from possessing and/or actually receiving hundreds of billions of dollars in various currencies, righteous and legal, and forced to live on welfare against my will with substantial assets owing... and I'm Provably telepathic since 8.24.2018!
