

SYNTHETIC TELEPATHY IS A WEAPON!

TELEPATHY IS A 100% DISABILITY!

June 10, 2022

To the citizens of the United States of America, and readers around the world,

Telepathy is a weapon, and like any weapon it can be used as a good work tool, and like any weapon it can be abused. Being attacked with a weapon is justification for the imposition of a death penalty on the attacker. In telepathy, imposition of lethal death penalties is privately enforceable by a command of the aggrieved to Mega for a prosecution of who has attacked him/her with telepathy as a weapon. The aggrieved demands a death penalty.

Attacks with synthetic telepathy as a weapon can strike anyone, at any time, from any ordinary desktop computer. The software for synthetic telepathy works from any ordinary computer (including smartphones) accessible to any person. Mind control software is known to this author to be traded on the open internet, even despite prohibition and government coordinated efforts to control this. It is also known to this author, every government on Earth claims the absolute, inviolable right to erase the memory or natural life learning of any person, in whole or in part, or warp someone with profound disruptions to their personality so severely at any time that the affected person instantly becomes permanently unknown and/or unknowable to anyone who has ever known that person.

Synthetic Telepathy is as easily used as a weapon as it is a work tool. There are always consequences for abuse of a weapon. The penalty for unjustified use of telepathy as a weapon is death. Governments across Earth are known to send their soldiers on obey or die missions of electronic victimization and electronic warfare against natural persons, for their own reasons, utilizing myriad attacks with synthetic telepathy against natural persons. This can include, among other things, causing extreme addiction in someone, which is unstoppable need to continue taking any substance, without the help of King Yahweh, personally, to stop each and every particular substance caused to be uncontrollably craved in an affected person, who is brought to the professional understanding of "instant active drug seeking behavior" for that substance. Such substances include, among other things, water, caffeine, taurine, smoke, tobacco smoke, nicotine, foodstuffs, sugar, sugar substitute, extreme crystal methamphetamine cravings in a drug naive person, and other things. It can also be used to profoundly disrupt the sleep of any person. The affect of "Synthetic Telepathy" can be complete and total on a natural person, victimizing him/her in every moment he or she is alive as a thinking, sensing, perceiving natural person, at its worst.

The United States Military command does the same in electronic warfare, costing United States Servicemember lives, for its own reasons, against natural persons it wishes to attack and/or affect in acts of espionage, covert surveillance and tampering for social control (such as threatening or bribing judges, politicians, or generally any person in foreign or historically also domestic jurisdictions who the United States seeks to influence at any time).

Consequently, "Synthetic Telepathy" is a 100% complete and total disability, and always compensable because it is as easily used as a weapon as it is a work tool at any time, against any person, from any ordinary computer accessible to public or state or federal actors.

This opinion of Dr. Blatt of Oxford is a final, finally binding expert opinion establishing the fact of "Synthetic Telepathy" as a means of transference and/or communication is also a 100% compensable 100% disability as well as true natural fact of the human condition.

This opinion helps very Veteran who's currently honorably discharged and also telepathic. For United States Citizens, it's time to talk about a basic income of ca. US \$3,333.33 per month in the United States for every adult individual 21 years of age and older. I would only give children Supplemental Security Income, if they were unlawfully telepathic, by and through the Social Security Administration. The foregoing is my expert knowledge and statement.

Sincerely,

Dr. James A. Blatt
PhD Oxford University

Aka Prince Luke

Vice President of the United States of America,

A bona fide Swiss Diplomat, entitled to all the rights, privileges, and immunities of a diplomat,

Honorary Major General in the United States Marine Corp

The foregoing is a message approved by Mr. President Yahweh of the United States of America, also known as, His Eminence.

The foregoing is published online at <https://redressgrievance.org/who-we-are-1/f/synthetic-telepathy-is-a-weapon-and-good-work-tool>, a link saved in the WayBack Machine at www.archive.org as my finally binding expert statement any judge must follow effective on or after June 13, 2022.
