

Specialized Mental Health Rehabilitation Facilities (SMHRFs)

SMHRFs are residential treatment facilities for adults with mental illness. They may be helpful for someone with mental illness who is having difficulty living in the community. They provide 24/7 staffing including mental health professionals and nursing staff. They are not nursing homes and do not provide skilled nursing care or assistance with activities of daily living. They do not provide care for people with dementia or major disabilities.

For more information and an updated list of different housing options, see <http://mentalhealthillinois.com/residential>
