

Galaxy's 11 (yes, it is an illusion to Ocean's 11) is an art community and a game of 'who done it.' Using the word community might seem odd considering we are not sharing our identity, however: How well do you know your neighbors IRL? I believe wholeheartedly that this group has the potential to grow and come together. Naturally, we will do that by competing.

THE RULES

Rounds begin on the 5th and of each month and continue until the last day of the corresponding month. **Voting takes place the 1st-5th** of the following month. **Round 2 begins NOW**, and will end on August 31st, and voting takes place September 1st-5th.

Individually and as groups you will compete to complete missions. To spice things up, I am shoving a stick in the spokes of this operation by requesting different agents to vary their mission slightly. Spies can be identified as doing something that seems out of sync or in opposition to the mission.

As art always has the potential to be debatable, controversial, or innovative; the group may disagree on who is the spy. That's A-OK, and as the story progresses you will begin to understand why. Each round will end in a group chat and a survey (the order may alternate) where **the group will attempt to identify which agent(s) were given mission variants** (different instructions for that round). *NO ONE GETS VOTED OFF THE SHIP.*

Points will be awarded for completing the mission, correctly identifying a spy(s), and for other BONUS objectives.

If you are eliminated from a round, you will receive no points for that round. If at any time you wish to not participate in a Round, simply type AGENT MIA, and leave the group chat by swiping left on the group chat and selecting LEAVE. The only way to quit the group is to delete your VERO account.
