

CLASSROOM VISITS: WHAT TO EXPECT

Notes
will be
provided!

What will I be doing?

Practicing using the strategies and receive coaching

Asking questions and seeking feedback

Collaborating with support staff to implement suggestions and next steps between visits

Our classroom coaching is meant to support your educators wherever they are in the implementation process. Student and staff needs vary from room to room, and so will the focus of our classroom visits. The approach is always collaborative, adaptable, and individualized to meet the specific needs of each group, whether they are just getting started with our programs or have been implementing for years. Overall, we hope that district staff and educators think of us as an extra set of hands and additional layer of support. Our goal is to advance staff knowledge and confidence with the teaching strategies, help develop efficient student and classroom schedules and program setup, and empower educators to leverage evidence-based practices to promote positive student outcomes. Please reach out to a STAR representative with any questions.

We look forward to hearing from you!
