

MEDICAL AESTHETICS

INITIAL CONSULTATION

THE FIRST STEP FOR ALL NEW CLIENTS

During your initial consultation we will discuss your treatment goals, medical history, treatment options and your suitability.

The cost of your consultation is redeemable against your treatment, should you be suitable and willing to proceed.

All consultations include skin analysis.

Initial consultation with skin analysis	50
---	----

ANTI-WRINKLE INJECTIONS

Botulinum toxin A, commonly known as 'Botox' is used to reduce muscle activity and the appearance of fine lines & wrinkles. You **must** have a consultation prior to treatment.

1 area	150
2 areas	190
3 areas	220
4 areas	250
5 areas	280
Jaw slimming	250
Excessive sweating	Under arms: 300 / Hands: 400 / Feet 550
Nefertiti neck lift	250
Surcharge for male clients	30

DERMAL FILLER

Hyaluronic acid dermal fillers are used to restore lost volume and define facial features.

Lips	0.7ml 160 / 1ml 220

MEDICAL AESTHETICS

SKIN BOOSTERS & BIOSTIMULATORS

An injectable treatment to improve skin quality and hydration on the face, neck, décolletage, body and hands. A course of treatments is required.

Seventy Hyal	1 treatment 120 / course of 3 320
Redensity 1	150
Stylage Hydromax	1ml 200 / 2ml 250
Profilo	1 treatment 220 / course of 2 400
Profilo Body	1 treatment 350 / course of 2 650

REGENERATIVE INJECTABLES

The following injectable treatments work in different ways to stimulate the body's own ability to produce collagen, elastin or regenerate subcutaneous fat. Results are accumulative over time and a course of treatments is required, to be discussed at consultation.

Profilo Structura	280
aesPLLA	200
Sculptra *Coming Soon*	1 vial 350 / 2 vials 600

POLYNUCLEOTIDES

Polynucleotides	Course of 3 treatments: 550
Additional syringe	180

MICRONEEDLING

A minimally invasive treatment that stimulates collagen production and promotes skin rejuvenation. There are additional benefits depending on the package chosen.

Microneedling (with serum & recovery mask)	100
Deluxe microneedling	M-HA10 125 / NCTF 150
'Glass facial': microneedling (with Botulinum Toxin A & NCTF)	250
Microneedling with exosomes	250

MEDICAL AESTHETICS

CHEMICAL PEELS

There are peels available for all skin types, with minimal to no downtime.

FILLMED Bright / Light / Time peel	40 / Course of 4: 150
BioRePeel (FND)	80 / Course of 4: 300
OBAGI Blue Radiance	100 / Course of 4: 350

PLATELET-RICH PLASMA (PRP)

This treatment involves having a sample of your blood taken which is then spun in a centrifuge, separating the plasma. Plasma contains lots of growth factors, nutrient and proteins. These are then microneedled or injected into your face (for skin rejuvenation) or scalp (for hair loss).

PRP facial 'Vampire Facial'	150
PRP for hair loss	180

DERMAPLANING

Dermaplaning is a minimally invasive treatment in which dead skin cells and vellus hair ('peach fuzz') are gently scraped off the face with a scalpel, leaving your skin brighter with a more even tone. Skincare products can also then penetrate more deeply.

Dermaplaning	45
Add on to another treatment	35
