	41 ft 15.5 ft wide	44.0 feet	Uncovered COVERED	$650 $750	October 1 – April 30th

Vessel Length and Liveaboard Requirements

The Harbour Village Marina Declaration of Condominium—our primary governing document—and the Marina Rules and Regulations establish strict vessel-length limits. These limits are based on the vessel's exact length overall (LOA), including all appendages.

Harbour Village Marina permits a maximum of five liveaboard vessels, with no more than one on each of our five piers. In addition to regular moorage charges, the liveaboard fee is $500 per month for the first person and $200 per month for an additional occupant.

Liveaboard applicants must complete a criminal background screening and participate in an interview with a Board member, the harbormaster, and current liveaboard residents. A deposit equal to three months of liveaboard fees is also required.

Before entering the marina, you may be asked to secure your vessel at the guest dock so its actual LOA can be measured. The vessel will also be measured after it is initially placed in the proposed slip. If the vessel exceeds the applicable length limit, a Moorage Agreement will not be approved or signed, and the vessel will not be permitted to remain in the marina.

Before purchasing or renting a slip, please confirm the vessel's exact LOA, including bow pulpits, swim platforms, outboard motors, davits, anchors, tenders, and any other fixed or projecting appendages. You should also consider whether the vessel must be moored bow-in or stern-in to comply with the applicable limit.

We strongly recommend having the vessel accurately measured before purchasing a slip or making plans to rent. Manufacturer specifications, model numbers displayed on vessels, information from previous owners, and broker listings frequently understate a vessel's true LOA.
