

The Tennant BioModulator®

This battery-powered, easy to use, hand-held medical device for pain relief uses microcurrent technology to engage the body's natural resources to assist the process of pain management & rehabilitation.

Additionally, the Tennant BioModulators® stimulate the body at the cellular level, restoring cellular metabolic activity in the area of treatment. This creates a reduction of pain and inflammation from the increased transport of nutrients to and wastes from the cells.

The Tennant BioModulator®

The Tennant BioModulator® PLUS is an advanced unit designed for long-lasting pain relief. The BioModulator® PLUS unit settings include four proprietary modes developed by Dr. Tennant. These modes include Assess, Ten-8™, Infinity™ and Automatic.

The Tennant BioModulator® PRO is a professional grade device specifically designed for when deeper therapy penetration is needed and is recommended for serious, chronic conditions. The device includes reaction technology and Dr. Jerry Tennant's proprietary frequencies, as well as user control options and more than 60 pre-set modes.

What is the difference between the Tennant BioModulator® PLUS and PRO?

The Tennant BioModulator® PLUS is Dr. Tennant's original unit with 4 modes and is very user friendly. The Tennant BioModulator® PRO is Dr. Tennant's newest unit, it has additional advanced modes and a digital display shows reaction information. Both devices can be used for Professional or Home Use.

The Tennant BioTransducer® Crystal Wave and Pro

"The Tennant BioTransducer® devices are a hand-held accessory that connect to the BioModulator and emits electromagnetic pulses to deliver a no-touch treatment through clothing.

It transmits frequencies and voltage through skin and bone. Delivering frequencies and voltage speeds up therapy time. A therapy that would have been 30 minutes with the BioModulator® alone can now be reduced to 10 minutes by using the BioTransducer®.

Additionally, the BioTransducer® may be used over injured tissue, that may have been too painful to use the BioModulator® on directly."

-Dr. Jerry Tennant
