

Can you identify what this is?

The main goal of these Learn Art Toronto classes is to discover your artistic eye. That is, learn to make that shift from what something ought to look like, for example a pear, into a compelling orchestration of lines, shapes, colour, shading, and light and dark. (materials, content, and results may vary for each course)

Remember that detail we looked at earlier?

Policies

- There are no make ups. Before you register, you can review our [full attendance policy](#) here.
- Although these are small groups, and the curriculum is an enriched foundation for Beginners, learning level and pace may vary from person to person.
- Before you decide to register thank you for [viewing all policies here](#).

About Michelle Fish

Michelle is the Founder and Instructor of Learn Art Toronto, (mostly for the 55+ population), focusing on drawing as a recreational and social activity.

- **Michelle's Background:** B.A. (Psychology), Master of Arts (Teaching) , Rhode Island School of Design (RISD) with most of her previous experiences teaching art and art appreciation at the University of Toronto.
