- **Registered Investment Companies**

# ■ ■ ■ Welcome to a New Kind of Compliance Partner

At 3iCO, we believe compliance should do more than check boxes. It should build trust, support growth, and feel like a natural extension of your team. Unlike traditional compliance firms we're a group of former CCOs and lawyers who saw a better way... and built it!

Our deep regulatory knowledge and legal insight ensure clients receive actionable, up-to-date, and practical guidance that goes far beyond standard protocols.

## WHAT MAKES US DIFFERENT

Our compliance officers integrate directly into your operations, working as part of your team while maintaining the independence needed for true regulatory oversight. Our approach is hands-on, tailored, and deeply personal. We work alongside you, not above you.

It's the ideal balance between insider understanding and objective governance.

## WHO WE WORK WITH

We support RIAs, Broker-Dealers, Investment Companies, ERAs, Private Funds and Private Equity, whether you need a fully outsourced CCO or independent support for your in-house compliance team.

Our consultative support strengthens your existing framework, keeping your internal team informed, prepared, and proactive.

## HOW WE HELP

Your firm is unique, and so are your compliance needs. We custom-build every engagement to reflect your structure, goals, and growth stage, ensuring solutions are as dynamic as your business, by providing:

- Outsourced CCO placements, or independent compliance consulting support for your internal team
- Custom policies and procedures, compliance calendars, and testing tools
- Real-time education and training modules
- Regulatory filings (ADV, U4/U5, Form CRS, and more)
- Risk assessments and mock regulatory exams
- Ongoing advice, reminders, and alerts

## WHY IT WORKS

We're entrepreneurs too, so we get the urgency, the stakes, and the pace.  
We're a team, not a lone consultant so, you get multiple minds, not one.

We're not just advisors...we're allies!
