

The Design Service

Bespoke Cabinetry & Fine Joinery · Sunshine Coast

THE DESIGN SERVICE

Every space begins with a conversation.

Before anything is built, it's designed — properly. Our Design Service brings together a full, considered process so you can see exactly how your project will come together, down to the finish and the fittings, before a single cut is made.

What follows is everything included as part of that process.

What's Included

- 01 Design Meeting At Your Home** — We come to you. A relaxed, in-person conversation to understand how you live, how you'll use the space, and what matters most to you.
- 02 Full Set of Shop Drawings** — Detailed, to-scale drawings covering every element of the build — the exact specification our workshop builds from.
- 03 3D Render** — A realistic visual of the finished space, so you can see the design before committing to it.
- 04 4 Board Colour Samples** — A curated selection of board finishes to choose from, tailored to your space and style.
- 05 2 Stone Colour Samples** — Stone options selected to complement your chosen board finishes.
- 06 2 Rounds of Revisions** — We refine the design based on your feedback until it's exactly right.

Prefer to see finishes in person? A supplier showroom visit can be arranged on request for larger projects — just ask and we'll coordinate it with you.

Investment

Kitchens	\$949	Fixed design fee
Wardrobes, Vanities, Storage, Home Offices, Entertainment Units & Furniture	Quoted individually	Scoped after project scope supplied

The design fee is invoiced ahead of your site meeting.

THE PROCESS

How It Works

- 1. Enquiry** — You reach out and we arrange a time that suits you.
 - 2. Design Meeting** — We visit your home to understand the space and your vision.
 - 3. Concept & Drawings** — We prepare your shop drawings and 3D render.
 - 4. Samples & Selections** — You review board and stone samples. A supplier showroom visit can be arranged on request.
 - 5. Refine** — We adjust the design based on your feedback until it's exactly right (2 x revisions included).
 - 6. Sign-Off & Build** — Once approved, your project moves into the build phase.
-
