## OBJECTIVE

“To leverage my experience in plumbing and insulation, specializing in hot and chilled water pipework using materials such as Armaflex, rockwool, and glass wool. Seeking a challenging position where I can apply my technical skills in installation, maintenance, and insulation techniques to ensure efficiency, safety, and quality in plumbing systems while contributing to organizational growth.”

## WORK EXPERIENCE

### SAI PLUMBING & FIRE SYSTEM

**Designation:** Plumber Technician

**Duration:** 07 Years

**Address:** Ludhiana, Punjab, India

#### Responsibilities:

- ❖ Install, repair, and maintain water supply, drainage, and sanitary piping systems.
- ❖ Perform hot and chilled water pipework insulation using appropriate materials such as Armaflex, rockwool, and glass wool.
- ❖ Prepare and fabricate insulation sections for complex fittings, including bends, tees, and valves, ensuring accurate measurements and proper fitting.
- ❖ Apply double insulation techniques for enhanced thermal efficiency and system protection.
- ❖ Seal, finish, and secure insulation materials to maintain durability, energy efficiency, and compliance with safety standards.
- ❖ Inspect existing piping and insulation systems, identifying damages or leaks and performing corrective measures.
- ❖ Ensure all plumbing and insulation tasks meet quality, safety, and environmental standards.
- ❖ Collaborate with engineers, supervisors, and other tradesmen to complete projects on time and according to specifications.
- ❖ Maintain tools, equipment, and workplace in a clean and safe condition.
- ❖ Provide support in testing and commissioning of plumbing and insulated pipe systems.

## EDUCATION

- Successfully completed **12<sup>th</sup>** Punjab School and Education Board in India.
- Successfully completed **10<sup>th</sup>** Punjab School and Education Board in India.

## KEY SKILL

- Installation, maintenance, and repair of air conditioning systems (split, window, and central units)
- Knowledge of refrigeration cycle and cooling systems
- Installation, repair, and maintenance of plumbing systems
- Hot & chilled water pipework insulation
- Expertise in insulation materials: Armaflex, rockwool, glass wool
- Preparing and fitting insulation for bends, tees, and valves
- Double insulation techniques for thermal efficiency
- Leak detection and pipework troubleshooting
- Knowledge of safety and quality standards in plumbing & insulation
- Ability to read and interpret technical drawings and specifications
