OBJECTIVE

"I want to use my skills in insulation and plumbing, especially with hot and cold-water pipework using Armaflex, rockwool, and glass wool. I'm looking for a challenging role where I can apply my knowledge in installation and maintenance to ensure safe, effective, and high-quality plumbing systems while helping the organization grow."

WORK EXPERIENCE

KISHAN PIPING SOLUTION

Designation: Plumber Technician

Duration: 05 Years

Address: Sanepa, Lalitpur, Nepal

RESPONSIBILITY:

- Install, repair, and maintain water supply, drainage, and sanitary pipes.
- Insulate hot and cold-water pipes using materials like Armaflex, rockwool, and glass wool.
- Cut and fit insulation for bends, tees, and valves with accurate measurements.
- Use double insulation for better protection and energy efficiency.
- Seal and finish insulation to ensure durability and safety.
- Check pipes and insulation for leaks or damage and fix them.
- Follow safety, quality, and environmental standards in all work.
- Work with engineers, supervisors, and team members to finish projects on time.
- Keep tools, equipment, and the workplace clean and safe.
- Help with testing and commissioning of plumbing and insulation systems.

EDUCATION

10+2	Orchid International College, Biratnagar (HSEB)
SLC	Manakamana Higher Secondary School, Lahan

KEY SKILLS
