Tricia Conlon, L.M.F.T.**

We hope this email finds you safe and in good health.

To maintain social distancing and still provide needed medical treatment and care, we are currently offering telemedicine visits. We can treat you remotely, from the comfort and safety of your home.

Telemedicine is the use of technology that enables remote health care visits, making it possible for physicians to treat patients by using a computer or phone. This will allow you to be evaluated by your provider without leaving your home.

With telemedicine there is no exposure to Coronavirus/COVID-19. In light of the current health crisis, most insurance companies, including Medicare, will cover your virtual visit.

Please call our office to set up your telemedicine visit

Thank you,

Dr. Remenson & Staff
