

Our Story

We do claims, you mend the sick!

Zafars Medical Billing is owned and operated by an industry veteran with 25 years of experience in the field of IT as a senior executive and a consultant connected to the medical industry. Amin has been providing innovative and efficient solutions related to revenue and claims management, eligibility processing and pharmacy related applications and technology adaptations.

Our **Medical Billing Experts** enter the patient's demographics and claim to ensure accurate claims entry into the EHR / Practice Management System in accordance with **specialty focused billing and coding** guidelines.

Our **Medical Billing Specialists** focus to submit the clean claim after fixing the **common billing and coding mistakes** to reduce the incorrect billing scenarios and constantly hit the first-time pass-through rate of 98%.

Our **Denial Management Experts** constantly check the internal claim scrubbing rejections, **clearinghouse rejections**, and **insurance denials** to take appropriate action in a timely fashion to get you paid faster.

Our **Practice Management Experts** run different **Medical Billing Analysis** to improve the key performance indicators and keep you up to date so you can gain insight for better and smart business decisions.
