

Interest Rates and Loan Information

8.99% For Homes

9.75% For Land and Land With Cabins

Interest will only accrue on the balance each month.

Any payments received within the first 90 days will be deducted from the principal.

That does any payments paid during this time.

All loans are amortized for 10 years.

The monthly payment never changes.

You will be provided with a “projected amortization” when you get the contract.

You may also request a payoff balance anytime you would like.
