The prices listed on this sheet represent those charges for a simple cremation. It involves transporting the body to the cremation provider, care of the body, an alternative container for cremation, the cremation, and releasing the cremated remains in a minimum container. It does not include embalming, a viewing, or service. Many families plan memorial services at a more convenient time and place.

When comparing prices online or over the phone, ask for the total cost. Many providers fail to disclose transportation or other costs when giving you an initial price.

Our mission is to educate and support families and individuals in making informed decisions about death related services consistent with their values and lifestyles.
