

International Conference on Intelligent Information Systems Design and Indian Knowledge System Applications (ICISDIKSA-2026)

January 8-9, 2026
Sarvasumana Association, Bengaluru, India.
THEME: IKS-The Next Gen

The International Conference on Information Systems Design and Intelligent Indian Knowledge Systems Applications focuses on the integration of cutting-edge technologies like Information Systems, Artificial Intelligence, and Intelligent Systems with the principles and practices derived from traditional Indian Knowledge Systems. This multidisciplinary event provides a platform for researchers, academics, and industry experts to discuss innovative methodologies, applications, and case studies blending modern computational approaches with ancient wisdom and indigenous practices. Key topics include sustainable technology design, AI-driven solutions inspired by Indian knowledge, and the role of traditional systems in contemporary problem-solving. The conference fosters collaboration across domains to advance global technology while preserving cultural heritage.

Call for research/review/case studies abstracts from computer science, genetics, genomics, biosciences, big data, yogic science, philosophy, psychology and neuroscience.

Topics of the session may include, but not limited to, the following:

- Big data
- Natural Language Processing
- Neurosciences and Nano-sciences
- Artificial Intelligence and Machine Learning
- Biosciences and Bio-computing
- IOT and Embedded Systems
- Psychology and Parapsychology
- Data Analysis in AYUSH
- Cloud Computing
- Quantum sciences and Quantum Computing
