

## **The First Cry**

Parents anxiously await to hear the first cry of their new born,

While family rejoices the birth of the new born,

But does anyone know the feelings of the crying baby at birth?

Is it the pain of the birthing? Or

Is it the fear of the unknown? Or

Is it the joy of life?

Who knows?

And yet we all celebrate the birth of a new born,

While the baby is wailing!!
