*Independent Health
Insurance Specialist*

***Need help
with health
coverage?***

It's essential to understand your healthcare coverage to use it effectively, stay healthy and to protect the ones you love in life.

My role is to help you do just that. I wear a lot of hats as a health insurance agent, but the most important one is my teacher hat. The essential services I offer explain your options, walk you through the details, and leave no question unanswered.

That's true if you're enrolling in Medicare for the first time, if you have questions about COBRA or Medicaid or if your small business needs a health plan.

Whatever your situation is, I'm here to help you understand your healthcare coverage options on your schedule, on your terms at no cost to you. Just think of me as your one stop!

Health insurance doesn't have to be overwhelming or frustrating.

I can help you with your health insurance- whatever your need is!

In America, healthcare coverage isn't one size fits all. The needs of a small business, Medicare recipient, growing family and an individual can vary quite a bit.

I offer professional guidance, tailored to your specific needs.

Here's How I Can Help

- ✓ Help with navigating Medicaid, COBRA and VA benefits
- ✓ Explain tax credits that can reduce the cost of your coverage
- ✓ Assistance and guidance with providers and medications
- ✓ Concierge service with enrollment that takes away the guesswork
- ✓ Ongoing support that is here to help you throughout the year, not just during enrollment

Small Business Health Plans

Individual & Family Plans
