

# **BOIL ADVISORY**

Bernice Water System

PWS IS# LA1111001

Union Parish, Louisiana

For Immediate Release

7/25/2024

The Bernice Water System has issued a boil advisory due to a water main break.

Because of this problem, the water produced by our water supply system is of questionable microbiological quality. Therefore, as a precaution, the Bernice Water System is issuing a BOIL ADVISORY effective immediately. This BOIL ADVISORY is to remain in effect until rescinded by the Bernice Water System.

It is recommended that all customers disinfect their water before consuming it (including fountain drinks, making ice, brushing teeth, or using it for preparation of foods) by the following means:

Boil water for one full minute in a clean container. The one-minute starts after the water has been brought to a rolling boil. (The flat taste can be eliminated by shaking water in a clean bottle or pouring it from one clean container to another.)

Sincerely,

Shelby Kelley  
Sewer Superintendent
