

## *A BETTER PLACE*

*Is it really that bad, and why are we sad  
we should be grateful, we should all be glad  
They have no more suffering, they have no more pain  
They're goin' to a better place, we will all see them again  
When you see them smile, you'll know they see the light  
They know in their heart, everything will be alright*

*A better place is where we'd all like to be  
A better place, a better place for you and me  
So wipe away the tears, why can't you see  
They've gone to a better place, where they're peaceful and free  
A better place, someday you'll see*

*They will go and see the one's that have left them behind  
Then they will see, there's no reason for us cryin'  
They will still feel our love, no matter where we are  
They may be gone away, but really not that far  
So shed those tears, and wipe them from your face  
Although they're gone, they've found a better place*

*A better place is where we'd all like to be  
A better place here on Earth, is what we'd all like to see  
There will be a better place, a better place for you and me  
Where there will be no more pain, just peaceful and free  
There is a better place and someday you'll see*

*We all want to believe there's got to be someplace better  
I have a feeling when we leave, we'll see why they say forever  
Mankind can make it living hell here on earth  
We live from day to day, we wonder what it's worth  
Dry the tears from your eyes, see that smile on their face  
They haven't left us, just goin' to a better place*

*A better place is where we'd all like to be  
A better place, a better place for you and me  
So wipe away the tears, why can't you see  
They've in another place, where they're peaceful and free  
There's got to be a better place, someday you'll see*
