

## WINGS

*My wings for you  
They are not long, but they are strong  
Wont you ride upon my wings  
Will you come along*

*My wings for you  
Will comfort you with their touch  
Shed you from the rain  
Ride upon my wings of love*

*My wings for you  
Will take you anywhere  
Tell me when your ready  
These wings of love will be there*

*My wings for you  
Will cover you at night  
Shelter you from harm  
Wrap you up, hold you tight*

*My wings for you  
Can help us rise above  
All that I can give you  
Are my wings and my love*
