

We are tutors trained in Powertex which is a universal mixed media paint, glue and fabric hardener making it a must have for mixed media projects. Powertex is water based in its liquid form and is non-toxic (having the highest American AP Safety label) so won't irritate your skin.

We host workshops on an individual basis or in groups (maximum of four people) at Lode Way in Chatteris. In all our workshops you will be walked through the process of creating your own unique project with a combination of Powertex, natural materials and embellishments. Once dry you will be guided through the process of adding colour and highlights to the project to bring it to life. All the necessary materials are included in the price.

If you would like to join us for a workshop you can book via our website:

## Gecko Workshop

This is a full day workshop.

This project is based on a 35cm MDF base which is given added dimension before the fabric and embellishments are added.

We'll have a refreshment break whilst the project is set aside to dry.

Time will then be spent adding the colour and highlighting the different textures.

The completed project is once again suitable for display outdoors once a further three week curing time has elapsed.

This project is suitable for beginners.
