

# AP Automation That Keeps Projects Moving

Built for Construction Teams Where Every Detail—and Dollar—Matters

MakersHub automates AP for construction firms with complex workflows, high bill volumes, and tight cost controls. We streamline bill capture, job-level coding, approvals, and payments—giving finance teams real-time visibility into costs and cash flow. The result: faster processing, fewer errors, and projects that stay on time and on budget.

## Why MakersHub for Construction?

Construction finance teams face constant pressure to stay on top of piles of paperwork, coordinate with field teams, and pay vendors promptly—all while preventing costly mistakes. Most AP solutions fall short by only handling payments, overlooking key workflows like detailed data entry, cost tracking, and configurable bill approvals & payment authorizations.

MakersHub is purpose-built to solve these challenges, delivering unmatched accuracy, control, and efficiency from bill to payment.

**AI-Powered Bill Data Extraction**  
Our intelligent system extracts, structures, and organizes bill data automatically—no more manual entry or lost hours chasing paperwork.

**Beyond Bill Pay**  
MakersHub captures every bill detail—down to the line item—and links it to jobs and purchase orders, so you always know where your money is going.

**Deep Accounting Integration**  
With two-way sync to your accounting system, every bill, approval, and payment is accurately tracked—eliminating rework and missing data.

**Job-Specific Approval Workflows**  
Route bills by job, vendor, or amount with customizable, multi-level approvals that reflect how your projects actually run.

**Prevent Delays & Overbilling**  
Real-time project cost visibility, built-in PO matching, and audit trails reduce risk of overpayments and fraud—ensuring vendors get paid on time and jobs keep moving.

**Field-Friendly Collaboration**  
Approve bills on the go, keep subs and suppliers in the loop, and eliminate the paper shuffle with centralized, trackable communication.

*“Most people think AI is just some computer wanting to take over the world. They’d be shocked to hear that we use AI right now and that it works. **It eliminated days of data entry that no one wanted to do.** It freed up our employees to engage in the kind of meaningful work they enjoy.”*

**Trey Cahill**  
President, Cahill Construction
