About Dr. Shakinah Spiritual Psychotherapist

As a spiritual emergence specialist, I am seeking to support those who are awakening into a new possibility of spiritual intelligence. From both a psychotherapeutic and transpersonal perspective, I work with individuals seeking assistance in the discovery of their soul purpose and mission.

I am a spiritual intuitive and have been an empath my entire life. At age 23, I experienced a profound spiritual emergency SE(y) that left me confused, hospitalized, and medicated. I rejected the western medical model of mental illness and began a spiritual quest to understand my experience and purpose. My SE(y) experience led me to pursue meditation, ancient studies, work with spiritual teachers, and Holotropic breathwork have provided a deeper understanding of my soul's sacred purpose. Among many roles, my work includes psychotherapy, research, authoring books on Ascension, and presenting workshops to a worldwide audience.

One of my most prized accomplishments is completing a dissertation research study on spiritual emergence (SE) to bridge the gap between Western medicine and Indigenous practices. This research supports the clinical community to understand better SE and spiritual emergency (SE(y)). My work in the fields of spirituality and mental health has been a fulfilling 30 + years. My soul's purpose is to help others who are unearthing their soul's path and mission. I offer Soul Purpose Workshops (SPW) for those ready to work on their soul's path and learn about the Ascension process.
