

## **MMW-Bonus**

### **Loss of Tao (Spiritual Emergency)**

#### ***Starseeds***

In an exchange with another in anti-Tao law, sometimes the Tao of you is destroyed. If you are aware of a loss of your Tao, you can choose to resurrect him so that he can foster what you are in need of clearing at this time with the one overrunning you. Tao death is a very significant issue of karmic no. No human or force is allowed to kill Tao anywhere in any galaxy. Upon Earth, there are keys and forces that do kill Tao. In other galaxies, loss of Tao never occurs. Losing your Tao is very difficult if it goes on for a long time as patterns that need to be cleared with his help fail to be released. The karma builds up to a disaster in the starseeds world.

Generally, Taos of the starseed system augment a repair of any Tao lost to any starseed. Sometimes the problem fails to be known for a time leading to a real frenzy as to where to take your life next. As Tao action unfolds, the seed knows where to motion on to next and the world turns in a new direction with sacred blessings for a fulfilling life ahead. The oligarchy society is very ill upon Earth. Seed frenzy hits most starseeds life once or twice through time. Once you have worked through a frenzy with your Tao and realigned your dream stream, you are less frightened when the second problem emerges with yet another problematic person in your life ahead.

Starseed frenzy is not a natural experience for starseeds in other galaxies. There is no karma for a frenzy of loss of all dream stream through time in any starseed. Alas the karmic keys do not necessarily know or care that you are a starseed. The keys are oligarchy in stature and only know the people present upon Earth in their current karmic fate. Starseeds then are subject often to karmic interplay that is not sincere unto your seed stature of existence. Life unfolds sometimes in rather difficult dreams as a result of the karma of those you associate with that are non-seeds as a result of their karma and not necessarily your own.
