#### **Intention to Ascend Questionnaire**

The intent to ascend focuses one's life in such a manner that each interaction and each occurrence of any given day, week, month, or year that supports your continued ascension rather than hinders it. The intent to ascend also triggers the birth of ascending humans related to your inheritance to be born global wide.

You are related to over 2 billion other humans through your living tapestry of ancestry; therefore, it is the intent to ascend that will augment the birth of ascending children upon Earth and in the coming 10-year cycle as more humans choose to make such an intent. Furthermore, the intention for global ascension of Earth and all species aligns your dream for ascension with the global dream for ascension, allowing the two to dovetail and support one another in this common goal.

What do you wish to make manifest?

Is it a beloved to dance with your life, or birthing an ascending child?

Is it to move to a new home and region that supports your ascent and allows for a greater connection to Earth?

Is it to fulfill upon a creative project that brings you joy?

Whatever one's dreams are, now is the time to allow one's dream to be intended, and then live to experience the dream fulfilled upon within one's life dance. Gaia/Earth recommends that each individual tune inward and listen to Gaia/Earth, listen to one's own ancestors, and listen to the nature kingdoms.
