About the Facilitator

Dr. Shakinah S. Judah is a 58-year-old mother and grandmother living in California. She works as a licensed psychotherapist offering Soul Purpose Sessions (SPS), Sound Healing Sessions (SHS), and Soul Purpose Workshops (SPW) to enthusiastic participants. Her first and second books are written utilizing the transcripts of her transcribed verbatim communications with her higher self and the Arcturians through channeling (clairaudience/telepathy). She is gently guided by her starseed family, the angelic realm, and the Arcturians during the writing of these Memoirs. Dr. Shakinah is the author of ***The Clinicians Guide to Spiritual Emergence***. The Clinicians Guide to Spiritual Emergence is intended to support clinicians' who are working with the spiritually emergent. A spiritual emergent individual is in a state of being where their vision of the world

and their relationship to it, are being transformed. The experience of spiritual emergence (SE) may bring a sense of clarity, revelation, and well-being in which one becomes more aware of a deeper (or higher) level of reality, leading to a sense of harmony and meaning, which allows an individual to transcend their normal sense of separations from the world.
