

MEET OUR OWNERS

Medical Director- Jason Adams, M.D.
Lead Instructor- Ivy Adams, L.T.

WHO WE ARE

As a family owned medical practice, we thrive to share our passion for medical aesthetics with our patients, and now with our students. Dr. Adams has had his practice in Gonzales now for 16 years. Ivy joined the team 4 years ago, and absolutely loves assessing and treating her patients. Dr. Adams and Ivy saw a need for trained laser technicians in the area, and decided to take it into their own hands to train and teach everything someone needs to know to have a successful career in the industry.

THE LASER AND MEDICAL AESTHETIC ACADEMY

Providing the highest quality of
education in Medical Aesthetics

CLASS SCHEDULE

Our course consists of 3 days of didactic training followed by 6 days of clinical training. The didactic portion of the class is on a Friday, Saturday, and Sunday from 8:00 am - 5:00 pm. After completing these three days, you will take clinical classes on Tuesday and Thursday from 7:30 am-3:00pm for three weeks.

Didactic training consist of book work, lectures, and written exams. Clinicals will allow you hands-on practice and training with real patients!

ABOUT THE COURSE

Our 72 hour extensive training program prepares and educates students in cosmetic lasers and other medical aesthetic procedures.

No experience is required to attend and receive your certifications.

The course consists of 27 hours of didactic and 45 hours of hands on clinicals.

Upon graduating, you will be certified in:

- Laser Hair Removal
- PhotoFacial IPL
- Laser Vein Removal
- Laser Skin Tightening
- Radiofrequency Skin Tightening
- Microdermabrasion
- Emsella Vaginal Rejuvenation
- Microneedling
- Sublative
- Sublime
- Laser Toe Nail Fungus
- Chemical Peels

OUR MISSION

Our mission at The Laser and Medical Aesthetic Academy at ACWH is to provide an encouraging, professional, and motivating environment for our students. We will provide the information, guidance, and knowledge needed to start a career as a Cosmetic Laser Technician. We also demonstrate self-marketing techniques and strategies, along with assisting in building a resume. This industry is only getting bigger, and there is a need for professionally trained laser technicians. Start your career with us by applying today!
