We Did Survey of Foreign Travelers and found very pathetic Answers

- 1..Travel insurance increases expenditure
- 2.. I already have a life and a health insurance plan and so travel insurance is not required
- 3.. I usually travel safe. My trip would therefore have no contingencies
- 4.. I am too old to get travel insurance
- 5.. I can always buy travel insurance later on
- 6.. I am Rich, do not require travel insurance

93% of the respondents knew about the concept of travel insurance.

80% of the participants considered it important while travelling.

only 38% of them actually bought a travel insurance policy

But,

Once you fall sick, your entire excuses go in Air, and you will die to get coverage at any cost, which is not possible

As per the report of International Federation of Health Plans, 2012, the average cost of a 24 - hour hospital stay in some of the popular tourist destinations are:

As per the report of International Federation of Health Plans, 2019, the average cost of a 24 - hour hospital stay in some of the popular tourist destinations are:

Country	Cost
South Africa	Rs.43,000
France	Rs.55,000
USA	Rs.278,000
Australia	Rs.95,000
New Zealand	Rs.63,000

(The data has been converted to INR from USD taking the USD rate at Rs.65)

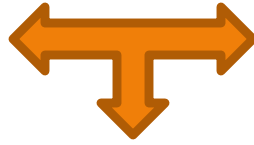

Such high costs !
Think of the corresponding increase in the cost at today's rate of inflation. Moreover, this is just the cost of hospital stay. What if you incur treatments? The costs would skyrocket out of proportions.
Is your health plan MEDI + CLAIM sufficient ?

If Not..Take it Before you Depart or preferably well in Advance...Go with the Best.

**STAR HEALTH &
ALLIED INSURANCE COMPANY LIMITED**
