(Insurance cum Investment Plan)

A Mutual Fund linked insurance plan
The premiums are invested in Reputed ever growing funds
with good returns & security of your life

The funds invest their money in capital market and earn
market linked returns. These plans provide many flexible
features like partial withdrawals wherein money can be
withdrawn from the plan, switching option which allows
switching between funds, top-ups which allow additional
premiums to be invested in the plan among others.

The plan pays a maturity benefit and also a death benefit as
life insurance cover is provided with the plan.

This is much better option plan than
only ULIP or only LIC or only Mutual fund
This is the better Financial Planning Scheme.
