NOTE FROM THE PRESIDENT

“An ounce of Practice is better than tons of Theory”

- Vishnudevananda Saraswati

You learn more when you perform more. Even in this fast paced world of competitiveness, where the youth needs to excel at every point of time to have a better life ahead; they need a path where they can learn and apply their skills. This is where BOLDNET comes into play! BOLDNET follows this principle of giving more importance to practical learning than mere theoretical knowledge.

This platform is designed beautifully to help you in your personality development as well as your career development! These budding youths take up various leadership and management responsibilities get a chance to introspect, learn and improve themselves practically with the guidance of our mentor and various industry professionals! Every Sunday meeting is carried out by the buddies themselves and is full of learning; right from introductions, presentations, guest sessions, activities; perfectly crafted and handpicked by coordinators and catering the overall development of all buddies right from crisis management, stage daring, impromptu thinking etc.

I thank BOLDNET for giving me this opportunity. I solemnly guarantee to fulfill this responsibility with absolute dedication and bring the best out of me and all of the buddies in BOLDNET. I am extremely glad to present you our newsletter of AMJ 2022 Tenure full of exciting content, sitback, relax and enjoy!!!

- Abhay More

President

BOLDNET Pioneers Chapter

Pune

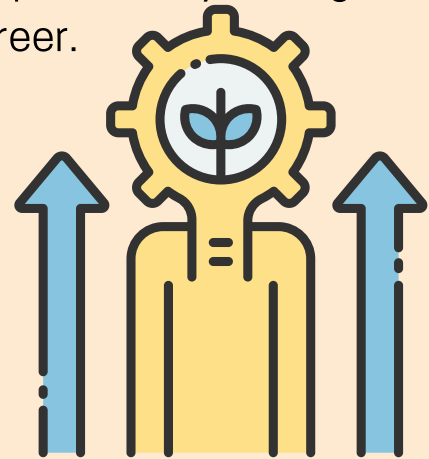

THEME OF THE MONTH

Development is a vast subject, working towards it without having a specific decided goal first is a vague and uncertain method of working towards success. Hence, we came up with the Theme of Month.

This month's theme was **"Personality and Leadership Development."** We had vibrant, creative and unique Introduction Themes that were all different and unique, and yet very staunchly centred on the Theme of the Month. This recurring pattern of having a wide spectrum of themes, which still have one common link shows the proficiency of the Coordinators. The skill that all us buddies try and inculcate is of finding the essence of personality development in the topics which we wish to present.

All of us have definitely worked on our existing personality traits.

All of us are also slowly but surely acquiring new ones. This month saw buddies taking up responsibilities and important roles despite other engagements, which also improved our compartmentalization and time-management skills. As all of us known, having leadership skills and a unique personality is of great help in any career.

Learnings

1. It's necessary to keep aside ego from parents pov and from our side and just settle things in a nice, calm, verbal fashion.
 2. Parents would understand the current gen z if communication aka the only bridge between the gen x and the gen z would be more
 3. It's necessary to change our rebellious mindset
- Moksh Nair

APRIL WRAP UP

"A Leader is someone who knows the way, goes the way and shows the way."

A leader is not just a position, a responsibility, or a characteristic. We at BOLDNET would say its all three. A position of authority, one to be respected and inspired by, a responsibility to be followed diligently and one to which you must give your full commitment, and also a characteristic, even if a person is in charge, there is always the undeniable possibility that someone else would do it better. April's theme was just about finding the inner leader in us, and also learning to utilise our other qualities to our fullest.

April introduced us to many new Introduction Themes, on the occasion of Gudi Padwa, we presented ourselves based on the skills we wanted to inculcate, or further improve on, and how they would help us in the future,

we also introspected which chess pieces we resonated with, which colours we resonated with, which World Leader or Business Leader was our role model and their qualities which we would like to inculcate, and which city of Maharashtra we resonated with. This diverse array of themes which still stay linked to the Monthly Theme help us to broaden our limits..

One of the goals of the BOLDNET family is to grow and expand our reach, this month we added Naman Shah and Aditya Mandke to our energetic team. We also saw the much awaited return of Arya Naik, one of our former buddies.

The Presentations that enthralled the meeting this month were super creative.

....

APRIL WRAP UP

We had a Presentation on trekking, which explained to us the different roles and responsibilities people have when they trek as a group, one about an Air India 101 incident which educated us about several new terminologies related to airplanes, and instructed us about crisis management, as all of us know, nowhere is man devoid of problems, so we had another much-needed and informative presentation on "Common Challenges Leaders Face", we also had a presentation on "Specialization in Management and Skills." which proved to be realistic, practical, technical and undoubtedly very useful, a presentation about the "It" factor of a person and how it can help them advance in life, taking inspiration from traditional myths and another presentation about a greek myth which talked about keeping a check on your personality.

This month's Activity Sessions focused on building on the Activities that the buddies were used to and slightly tweaking them or increasing the difficulty level by a certain extent. We had an exciting "Problem Solving" Session with a slightly increased complexity level because the problem was described in factual form, with more stress given to numerical figures, we also had an "Impromptu Debate" where we followed our usual format of a debate but chose a more controversial topic and encouraged the maximum number of buddies to talk to make it a fruitful debate, and another Activity based on "Impromptu Speaking" which allowed the buddies to properly structure and express their thoughts on logical and thought-provoking topics.

APRIL WRAP UP

We also had an amazing Guest Speaker Session by Mr. Ajay Telang Sir who taught us the quintessential concepts of Jeevika and Upjeevika, success, positivity, and happiness. It was an intricately detailed, massively helpful and rejuvenating session.

We applaud at our recent successes and begin improving on our shortcomings as the first month of AMJ tenure comes to an end. Quoting one of my favorite film dialogues "This is not the end, its not even the beginning of the end. But it is, perhaps, the end of the beginning."

Learnings

1. Be bold and clear with ur speech and do not fumble. Speak up to the point and open ur heart
 2. Be a good listener and take everyone's opinion and work on it
- Naman Shah

Learnings

1. Communicate & open up to parents, be supportive & understand them.
 2. Be aware of our parent's sacrifices & the hardships they endure for us.
- Arya Naik

Learnings

1. There is a step by step solution to every problem.
 2. It is important to be calm to address any problem in order to think properly.
 3. It is important to communicate with parents to build mutual trust and understanding.
 4. Present the audience with both the positives and negatives of any topic.
 5. Let others formulate their own opinions.
- Aadit Paranjape

Learnings

1. The importance of voice modulation in a speech.
2. Having a personal connect with the views you are presenting is very effective.

- Alisha Sardesai

GUEST SPEAKERS

Mr. Ajay Telang

Topic: Jeevika and Upajeevika

17/03/2022

LEARNINGS

NAMAN: Jeevika and Upajeevika were two topics I didn't know about at all, but they were explained in an interesting way.

ABHAY: Jeevika, why we are here, why we exist and what should be our purpose in life comes first and is the primary concern.

OM: Yes! Also, Kindness and encouragement is helpful and it's always beneficial. Looking at life broadly is necessary.

SIDDHI: Absolutely! Happiness can be generated anytime, anywhere. It's free of cost and yet the most valuable thing.

AADIT: Right! We should learn to be content with what we have and try our best in everything we do.

SWARANGI: Good point! Why we do what we do determines how we do it.

NEEL: Another thing I learnt is that... Attitude and Aptitude are very important in choosing appropriate careers.

OM: Deliberation is also important, assess yourself and all the other factors... look before you leap!

ARYA: Most important point to be noted is: "Success ke piche mat bhago excellence ke piche bhago".

PRESENTATIONS

3/04/2022 Air India 101 Crash by Aadit Paranjape

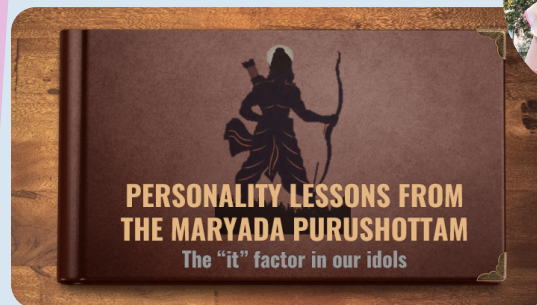

Aadit's ppt made me aware of so many new terminologies.. and the incident of Air India 101..

It really showed me that... Even when all fails, one's true skills and instincts will bring us out of the worse situation..
- Abhay More

Lord Ram and IT factor by Siddhi Deshmukh 24/04/2022

Today's presentations have got me thinking and I've been introspecting on what my "it" factor is. Thank you @Siddhi for talking about this topic
- Moksh Nair

- Learnings**
1. Parents help us with the right and the wrong; so communicate with them to take better decisions.
 2. We must respect our parents; express opinions and grow together.
- Prathamesh Takawale

- Learnings**
1. Deep thinking on case study. To analyze the problem, think on it and solve it. Look at points in a positive way.
 2. Our parents work hard to build our career and empire.
 3. Structuring the speech point wise.
- Shubham Shende

PRESENTATIONS

'Change is painful, growth is painful but nothing is as painful as being stuck somewhere you don't belong. Don't be afraid of changing slowly but be afraid of standing still!'

03/04/2022 : LT's Presentation

10/04/2022 : Varad's Presentation on Trekking

17/04/2022 : Aditi's Presentation on Common Challenges Leaders Face

17/04/2022 : Shubham's Presentation on Specialization in Management

24/04/2022 : Om Kokane's Presentation on Theseus the Idiot

Learnings

1. Learnt about the rather thorough process of organizing a session.
2. When facing adversity, you need to be the calm in the storm.
3. You can always get everything done by prioritizing and Time Management.
4. Having thorough knowledge of speaking criterias is important.
5. When the responsibility of ensuring protocol is in your hands, you need to be determined. - Om Kokane

Learnings

1. Speak with conviction, personal examples to make the speech more captivating.
 2. Utilize the time completely.
- Tanmaya Pandit

INTRODUCTION WINNERS

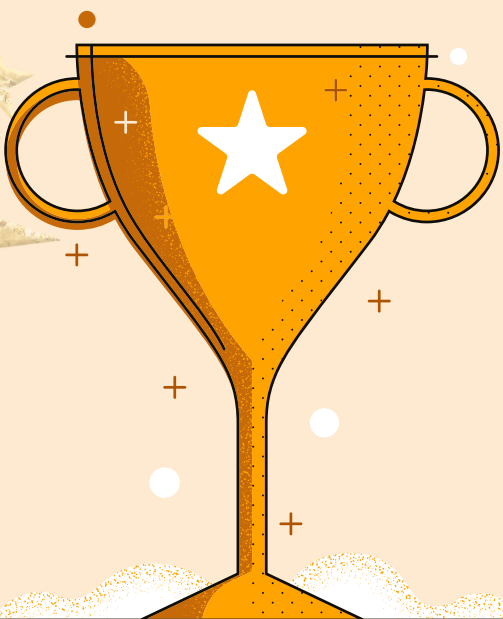

Don't Practice until you get it right, Practice until you can't get it wrong.

Heartiest congratulations to all the introduction round winners for the month of April!!

Every meeting is chance to dive deeper into our personality and assess our strengths and weaknesses. With the help of innovative themes we learn to widen our perspective and take inspiration from everything around us.

It is evident that you all are truly discovering yourselves and consolidating your strengths.

Keep Up the Good Work Buddies!

CHAMPIONS :

03/04/2022 -

Ms. Gargi Gataade & Ms. Swarangi Naiksatam

10/04/2022

Ms. Arya Dravid

17/04/2022 -

Ms. Vaishnavi Deshmukh

24/04/2022 -

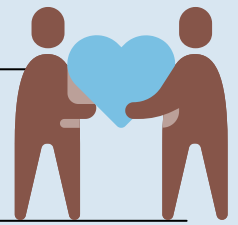

Mr. Neel Bhanu

Learnings

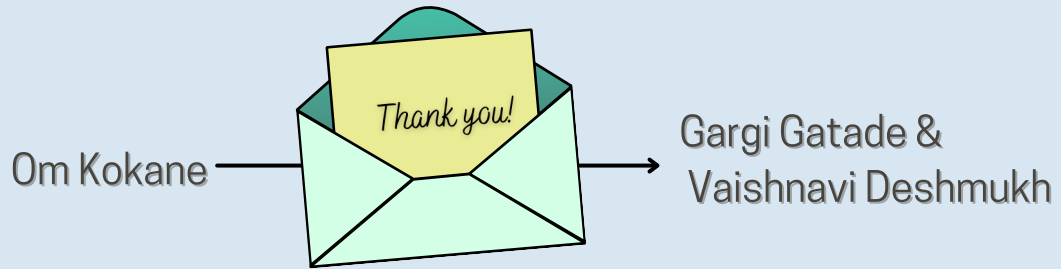

1. In business you should always look for profit, else it will be just charity based organisation
2. It's important to explore surroundings, stay updated to current generation needs and adapt yourself.
3. One should be aware of the sacrifices done by our parents.
4. Have a personal connect, whenever we are presenting something.

- Abhay More

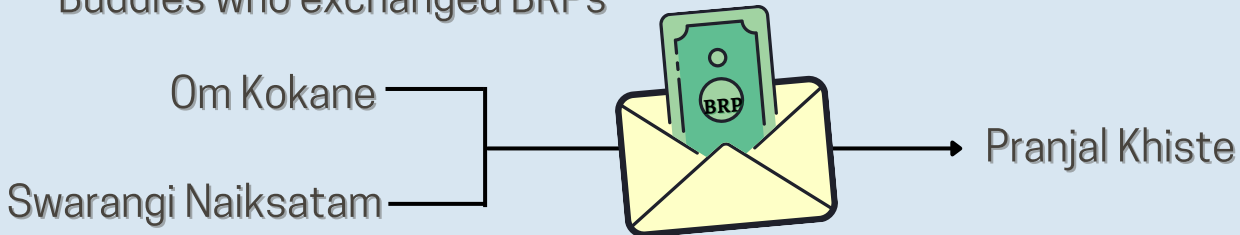

CARE TO SHARE

Buddies who thanked others for the help offered!

Buddies who exchanged BRPs

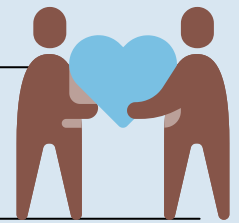

Learnings

1. Saying right words make equal impact on our mind.
2. Look at problems in a objective way.
3. Expressing helps be more confident.
4. As you go Personal, you go universal.

- Ashutosh Vast

CARE TO SHARE

Strength doesn't come from what you can do, it comes from overcoming the things you once thought you couldn't.

Buddies who asked for help from fellow buddies!

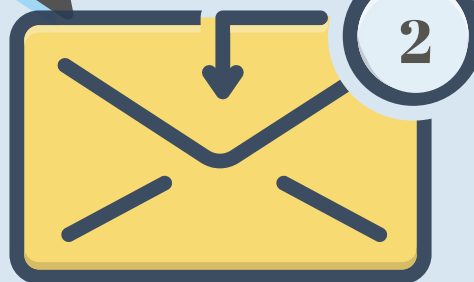

(Abhishek) 3/4/2022
Swarangi, can you help me in
accounting related terms?

(Abhay) 10/4/2022
Swarangi, can you help me
regarding German Courses?

(Arya Naik)

10/4/2022

Sae, can you help me
regarding Korean Language?

Learnings

1. Speaking our opinion matters a lot, you should be confident while speaking.
 2. We should listen & understand our parents' opinions.
 3. Content matters but the way you present it also matters.
 4. Connecting personal Aspects.
- Dhvani Patil

Learnings

1. Assess the problem in detail.
 2. It's important to know the basic terminologies regarding commerce and trade.
 3. Maintaining a steadier speed of my speech and regulating the tone.
 4. Connecting the mind and the heart when we have to speak on a given topic.
- Siddhi Deshmukh

ATTENDANCE

Heartiest congratulations to the buddies who have successfully achieved 100% attendance for rolling months that is February, March and April!!

Abhay More

Om Kokane

Aditi Gadkari

Neel Bhanu

Aadit Paranjape

Buddies with 100% attendance in April

Aadit Paranjape
Abhay More
Om Kokane
Gargi Gatade
Sae Kalate
Shhloka Bhat

Aditi Gadkari
Pranjal Khiste
Siddhi Deshmukh
Neel Bhanu
Shubham Shende

Learnings

1. We should study a problem in detail & solve it step by step.
2. Speaking up your opinion matters.
3. Speak from the heart on the given topic.
4. Voice modulation is important while speaking.
5. Have a structured speech.

- Aditi Gadkari

RIGHT BRAINS ONLY

The world is your colour palette, paint away!

Pranjal's art

Learnings

1. Consider the problem in detail.
2. There are many solutions for a single problem we just need to think and take ideas from others.
3. Try to frame sentences in your own words.
4. Try to find every little detail on a specific topic.
5. Make use of all the time you have.

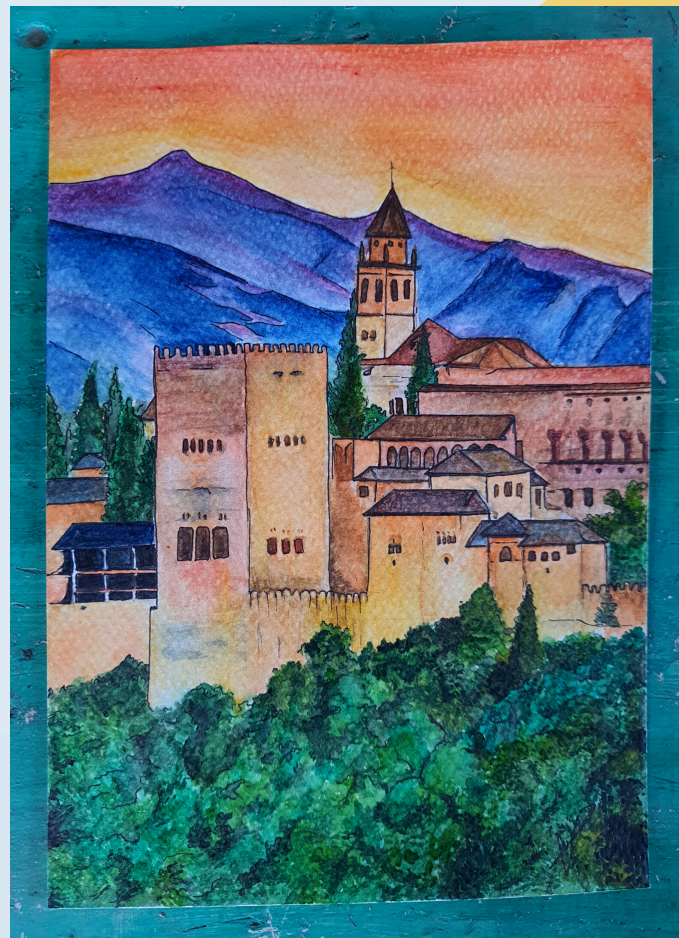

– Tithi Patel

Learnings

1. It was an amazing experience.
2. One should be able to think on small period of time and give a valid response.

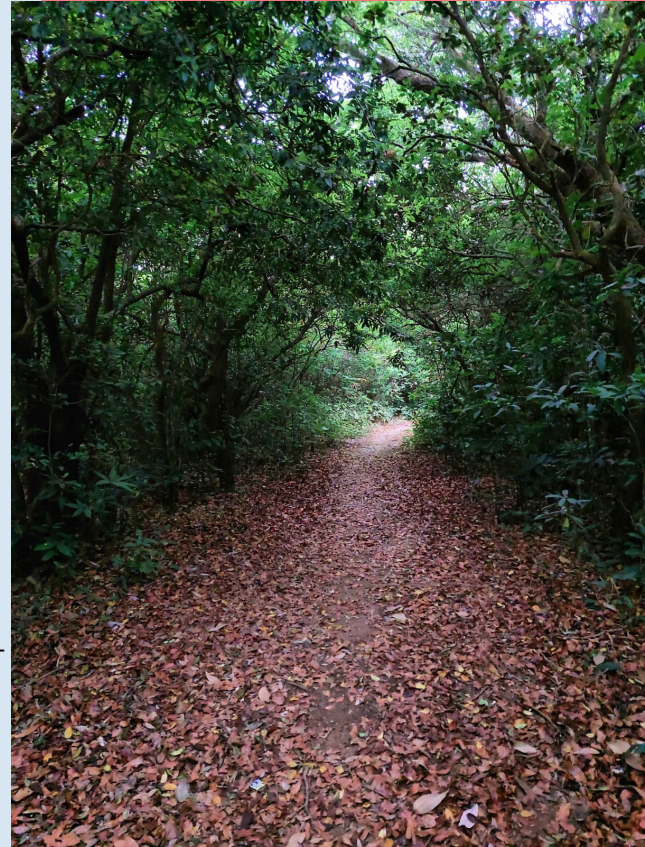

– Aditya Mandake

Alisha's art

Abhishek's Photography

Aditya's YouTube Channel

<https://www.youtube.com/channel/UCyeQGtaQw7cRN9fHxqRuLCg>

Learnings

1. All people have different perspectives of a situation.
2. Communication is the best tool.
3. Listening is important for a successful conversation to take place.

- Abhishek Alurkar

Learnings

1. Everyone has a different perspective and way of tackling the same problem.
2. Find the cause of the problem before thinking about the solution.
3. It is not only our parents responsibility to understand us but ours as well.
4. Our parents only motive behind opposing us on some things is them wanting us to be safe, secure and their love and care for us.
5. To speak from the heart and not only mind. Not only the content but the way you put it forward also matters.

- Saeed Kalate

Abhay's article

BOIDS ("bird-oid object")

Let's say you want the behavior of flocking of birds in the sky, or shoal of fish in the ocean and you want this behavior to be implemented in your open world game or your intensive VFX Movie, that's where the Boids simulation comes into play.

Boids is an Artificial Life program created by Craig Reynolds in 1986, which simulates this herd type behavior. This behavior works on three basic principles:

Separation: Steer or avoid collision with the neighboring boids.

Alignment: Align your direction to the average of all the neighboring boids' direction.

Cohesion: Move towards the average position of neighboring boids.

Learnings

1. Make an action plan for even the improvements in personality and it shouldn't be just wishful thinking.
2. Was reinforced with the thought that having market knowledge is important to make well informed decisions.
3. To reach the audience effectively, having a personal touch is necessary.
4. "Content engages but emotions impact" is something I will live by now.

- Vaishnavi Deshmukh

These three rules are applied to every single entity/boid. And when letting this simulation work, it perfectly demonstrates the flocking behavior.

I have similarly created this behavior in C++ language using a graphics library known as Simple and Fast Multimedia Library(SFML) for showing the behavior on the screen.

I also added an extra rule for avoiding any obstacle in the way, the implementation of it is a little bumpy but it works XD.

Give it a look on YouTube:
<https://www.youtube.com/watch?v=intyypdMk00>

Learnings

1. Earning profit through sales is of utmost importance for a business.
2. Using positive terms while speaking of improvements is the key to actually improving on them effectively.
3. Getting influenced is easy but having control over our own mind is essential to stay focussed and have a healthy mindset.
4. Be aware of the tone of your speech.

- Pranjal Khiste

Change is the law of life. And those who look only to the past or present are certain to miss the future.

Alisha's Poem

Silhouettes

She chose to keep them.
Safe and sound.
In her shelf of memories.
She keeps her hopes on the ground,
accepting all leave.

But one by one, she lights 'em up,
as they burn in the jars.
Keeping her warm from the storm;
healing wounds, leaving scars.
For the time that warmth matters,
letting in their absence now she
regrets.
But looking down at the scars,
she remembers,
they still dwell in the shelf
as shimmering silhouettes.

~ Alisha Sardesai

for more blogs!

Learnings

1. Instead of saying "I want to manage my time properly", say "I will do more number of tasks in a certain amount of time".
2. Parents are your first friends, teacher, and life guards. So always listen to their suggestions.
3. Voice modulation is important while giving a speech.

- Shhloka Bhat

Atharva's Art

Learnings

1. A problem can only be solved when all perspectives are taken into consideration.
2. A leader always thinks collectively not only about 1 or 2 people.
3. The respect between parents and children should always be two ways.
4. Express your opinion, even if it is wrong, expressing your opinion helps.
5. Speak with conviction. Connecting with the audience is important.
6. Practicality matters a lot while speaking.

- Neel Bhanu

ACKNOWLEDGEMENTS

Heartfelt gratitude to our Mentor Director Mr. Avinash Deshmukh without whom this exciting self development journey would have always remained uncertainly in the future. Thank you for having an unwavering faith in us and pushing us to be better...

to BOLDNET, we say
Yeh Dil Maange More!!
