# NOTE FROM THE VICE PRESIDENT

---

And then there came a Sunday morning – smiling at us BOLDNET buddies with it's bright rays of hope!... and we with our dynamic and confident selves, all ready to win over it!

Where there's a will, there's a way! Similarly, where there's ambition, courage and a will to do more; there's a promising way ahead – BOLDNET! It is a world of multiple opportunities with it's members as the primary building blocks! These young and versatile minds take up responsibilities, come together and contribute whole-heartedly to share as well as learn through every aspect!

The beauty of BOLDNET is that everything we learn here is unique and delivered with the purest of intentions!

A positive approach towards even the smallest piece of life changes the perspective of looking at it! The guest sessions, the activity sessions and even the interactive informal sessions which happen here add a lot of these positive perspectives and keep giving us buddies a reality check to never underestimate what we, as humans, are truly capable of!

BOLDNET aims at shaping the careers of it's members in the best way possible and also encourages us all to 'Take Charge' – to be stronger and better versions of ourselves!

Clarity of career is a must know in today's world. This is what we majorly focus at and work passionately towards!

....

---

# NOTE FROM THE VICE PRESIDENT

---

Knowing exactly what a career path has to offer can help make a choice more efficiently and also provide a head start to develop the particular qualities required for the same.

BOLDNET believes in the fact that – ‘Being stagnant kills, Being in motion helps you reach further heights’! This is the reason why we buddies must always remember to actively participate and be consistent in every way to reap as much benefits as possible!

As the Vice-President of the Chapter, I am sincerely grateful to BOLDNET for entrusting me with this responsibility and giving me the chance to work on myself as well as on my dear BOLDNET buddies! I promise to shoulder this responsibility with utmost care and precision and also to contribute my best at all times!

I bet you are now on the edge of your seat to have a further look at our grand BOLDNET Newsletter!

So why wait!?

Hop on, tighten your seatbelts and let the rollercoaster ride begin!!!

- Pranjali Khiste  
Vice President  
BOLDNET Pioneers Chapter  
Pune

---

# Theme of the Month

---

One can never plan too much for anything. The more backups one has for his/her backup plan, the better. Hence our planning led us to the novel idea of selecting one broad skill for one month and then covering and practicing it extensively to master it as much as possible. This is how we've been progressing with the "theme of the month".

The theme for February was **"Clarity of Career"**, and thus to keep up with the theme, all the Introduction Themes, Presentations, Guest Sessions and Activity Sessions were based on this topic. To help our buddies get clarity and clear the obscure fog of career tension, somewhat, if not entirely.

Want to know how we did it? A few scrolls are all it takes to find out!!

## Learnings

1. Research is needed for a fruitful discussion
2. Conveying your points properly with your group is essential
3. Have a Problem solving attitude
4. Understand the effects of peer pressure and use it for self benefit

- Tanmaya Pandit

---

# FEB WRAP UP

---

**BOLDNET** is truly a powerful guide and an extremely positive space. We learned to get more practical and work towards achieving our career, because now is the most crucial time, in any stage of our life. Every meeting is a step forward, but not one taken in hesitancy into the murky depths of the real world, but a confident one, taken with our buddies and seniors who act like a flaming torch in our hands, allowing us to see more, to know more. Although to find out, even more, we must put one foot in front of the other and venture out to take another step. Here at BOLDNET we also learn to build the courage to walk the path of life. Every Sunday, we have our enthusiastic buddies lining up to face their devices for yet another two-hour meeting comprised of sheer enlightenment at its best. The buddies' seat stays the same but the advice, knowledge and

learning are always different, yet fresh, new, exciting and spellbinding.

Our amazing cruise through February started on the 6th of February, the month's first Sunday. We were immediately brought up to speed and the agenda of striving hard towards "Career Clarity" was made clear right in the first meeting itself.

We kicked off what has been a fabulous tenure with some deeply career-related introduction Themes and Activity Sessions; like our favourite group discussions.

It is important to keep growing in new and compelling ways which is why it is imperative to set specific goals that help you get to where you want to be. We could see the pathway to achieve the goals, missions and visions forming before our eyes.

....

---

# FEB WRAP UP

---

To showcase our network's "wow" factor to a greater audience, we also had our second Visitors Day this month! We had a total of 18 visitors and it was an absolute success.

We inducted two brilliant personalities this month namely, Avaneesh Kadam and Yash Agrawal. We had specifically designed formal introduction themes to get into the shoes of a confident employee introducing himself/herself. They were about the values, ethics, soft and hard skills you need to inculcate, etc. We had some quite detailed and specific presentations in this month, on topics like "Music Direction" which focused on the importance of this career field and the many occupations related to it. We also got a lot of information about topics like "Game Development" and "E-sports" which are some careers

emerging as lucrative and interesting to many.

Speaking of money, the very thorough, meticulous and comprehensive presentation which we had on "CS and Corporate Rescue." deserves a mention. It helped us understand this new topic quite well, as did all the other sensational presentations we saw this month.

....

---

# FEB WRAP UP

---

The Activity Sessions on Problem Solving and Group Discussions made us work with our newly formed Buddy Groups which increased our camaraderie and comfort between all the buddies.

The activities had us think up viable and plausible solutions for all sorts of problems we might encounter in our way through life. We were also made to work with Visitors which helped us with our interpersonal skills. The Guest Sessions on "Career Clarity" and "Introduction to Stock Markets" proved to be enormously helpful.

We hope to have such tremendous memories and intriguing knowledge till the end of the year and for all the bright years to come!!

--X--

## Learnings

1. Be optimistic while facing failures, cribbing on it is not a solution
2. As taxpayers it's our duty and right to make sure that public schemes reach us.
3. Dedication and determination are the keys to any goal in life.

- Neel Bhanu

## Learnings

1. I learnt about the vital role of STEM graduates in the efficient functioning of a society.
2. Research about a particular topic before talking about it is essential.
3. A problem solving attitude will make our lives easier

- Aadit Paranjape

---

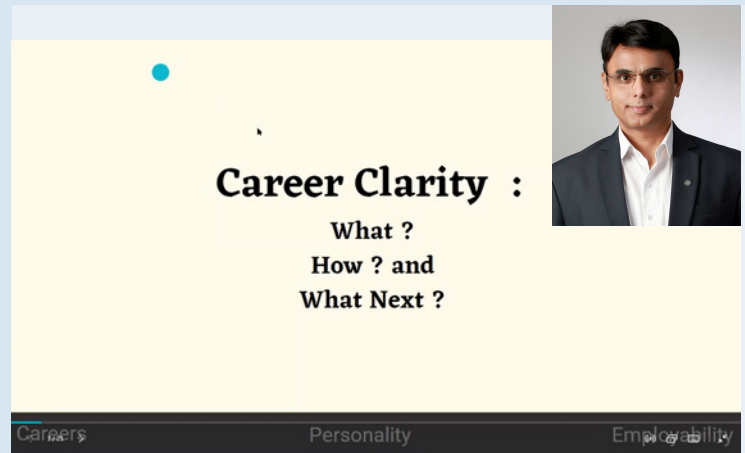

# GUEST SPEAKERS

---

## Mr. Avinash Deshmukh

A **very inspiring** and detailed session on career clarity was given by our very own mentor.

- He talked about the importance of developing employability.
- He explained a step by step process on how to identify the right career for us and how to work towards the same.
- He also talked about the various factors that affect our choice of career and how we should strike a balance between our strengths and interests to chalk out the perfect career.
- He also stressed on a very important point- not only to look for a career which has scope but also to look for a career where I have scope.
- He ended the session with 14 keys to success – some highly important developmental tips which definitely changed our perspective about career planning.

## LEARNING :

**Vaishnavi:** Time is of essence while finalizing our career! It involves exploring, decision making, assessment of interests, skills and inculcating those skills.

**Aadit:** Right! Knowing the skills required for a career and working on them ASAP is essential to increase employability.

**Abhay:** At entry level no one will expect exceptional skills, but knowing prior about the battlefield will increase your chance of succeeding ahead!

## LEARNING :

**Siddhi:** Building on basic skills like computing, finance, networking is just as important as our career skills.

**Abhishek:** Being consistent in life is also important - know what are you meant for!

**Saee:** Also, degree of interest depends on the environment provided. Its of no point in having knowledge you can't put to use

**Omkar:** We must understand the responsibility of what we need and what we do

**Alisha:** We mustn't lose hope! Failures are proofs that you are trying!

**Atharva:** Agreed!! Failing is the most important part to build your career that helps you learn new things and build your personality.

**Sanika:** Accept things! Your weaknesses are okay, you can work on building them. No one is perfect!

**Nikita:** Discover yourself!  
Have a Dream! Take a Mentor!  
Make a Plan...  
Get into Action!!!

### Learnings

1. I became aware of the extent of cyber vulnerability we face.
2. Being vigilant and aware citizens is necessary to cease the ill practices.
3. Clarity of career isn't just about academia but also aspects like how peers and failures and confusion affect our decision making. - Vaishnavi Deshmukh

### Learnings

1. Learnt how to talk and how to express yourself!

- Omkar Joshi

---

# GUEST SPEAKERS

---

## Mr. Makarand Pandit

**An illuminating session** on Introduction to Stock Markets!

His impeccable skill of explaining difficult concepts in a precise and easy manner was noteworthy and we all were left a littler wiser after the session.

- He explained all the preliminary concepts of equity markets, taught us how to read various charts and cleared our clouded notions about equity trading.
- He expanded on many technical terms and familiarized us with the concepts which once seemed too alien to understand.
- He talked about how majorly the role of share market is played in an economy, giving it a status of being called the barometer of an economy.
- He also highlighted the importance of having a good portfolio in today's era, sparking an interest in all of us to learn further about equity and trading.

### Introduction to Stock Markets

Makarand (Mak) Pandit

#### What is a stock market?

A Legitimate place where company's shares are bought/sold, and a record is maintained.

## LEARNING :

**Tanmaya:** Enjoyeddd today's meeting! I can start trading even today with right ground work

**Om:** And one can start trading with any meager amount. But it is important to study and know how and when to trade.

**Agastya:** Surely invest , Smartly Invest, You don't need lot of Capital to start investing in Stocks

**Avaneesh:** But remember, for investing in stock one should have a DEMAT account!

## LEARNING :

**Ashutosh:** Commodity market is bigger than share market but you also need more money to invest in it.

**Yash:** True!! Also realized the power of compounding and starting early in the market.

**Pranjal:** Study is required, like the difference between a bear and a bull, before putting a foot into investing

**Shreyas:** So start researching about stock markets and other plans which will help in future.

**Neel:** But stock markets, investments come along with many risks,. You should have the ability to analyze them if you want to invest or buy shares. Also have the readiness to face the consequences, positive or negative

**Moksh:** Point!

Now I can't wait to open my bank account and my DEMAT account!

After all, who doesn't like a bit more money in the pocket, eh?

---

# PRESENTATIONS

---

Om, I never knew stand up comedy had itna saara theory behind it. Loved the way you presented it. I learnt a lot.  
- Moksh

6/02/2022  
Types of Basic Jokes in Stand Up Comedy by Om Kokane

6/02/2022  
Process of Filmmaking by Abhishek Alurkar

Abhishek brings new aspects of film making each time he presents and its so informative!  
- Siddhi

13/02/2022  
E-sports Industry by Moksh Nair

Moksh, truly speaking before you began your presentation I didn't had much idea regarding E- sports, but thanks to your presentation now I know well about it.  
- Agastya

## Learnings

1. One of the most courageous thing is to accept your failures and not repeat them.
2. You have to encourage good peer pressure

- Shhloka Bhat

# PRESENTATIONS

The presentation by Abhay on video game development and what all is involved behind a single game and also the diverse range of people working on it was really new to me  
- Pranjal

13/02/2022

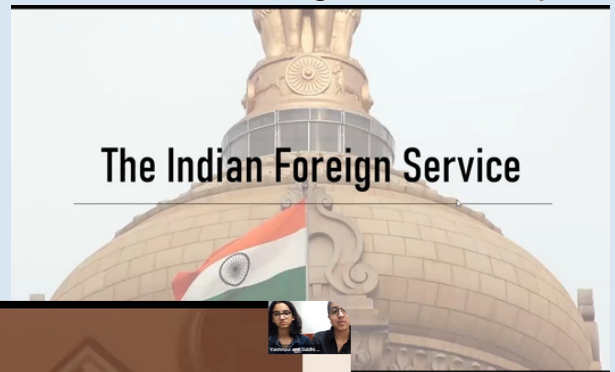

Video Game Development by Abhay

Neel presented on 'Indian Foreign Services', explained the role of Indian Foreign Service Officers, and also highlighting that the Officers represent the country in Embassies, Consulates, High Commissions, and safeguard India's concerns.  
- Om

27/02/2022

The Indian Foreign Service by Neel

CS and CORPORATE RESCUE

Role of a Company Secretary in the Corporate Insolvency Resolution Process

20/02/2022

CS and Corporate Rescue by Vaishnavi

I didn't had that much idea about insolvency. It was new to me.. Really awesome and informative ppt Vaishnavi  
- Abhay

## Learnings

1. The youth decides the future of the country
- 2.. Your mindset depends on your circle
3. Sometimes it is good to take initiative

- Shreyas Bharadwaj

## Learnings

1. Group discussion was very deliberative and engaging.
2. Every group summarized their discussion very concisely.
3. Peer pressure is good if given by good people
4. Try to foresee your career path

- Agastya Bhat

---

# PRESENTATIONS

---

Sarthak's ppt was informative! Would really like to know other marketing strategies and supermarkets use  
- Abhay

20/02/2022

Marketing Strategies by Sarthak

Thanks to Sanika's presentation about Branches of Psychology. Now I know how diverse the field of psychology truly is.  
- Shhloka

27/02/2022

Branches of Psychology by Sanika

## Learnings

1. Professional help, aptitude tests and DMIT reports certainly help in choosing the right career path.
2. It is important to know the difference between a hobby and a career choice

- Arya Dravid

## Learnings

1. Learnt to encapsulate information into a coherent and attractive speech
2. Strive towards completion, no matter how bad it gets, you've still won if you finish the race.
3. Realize a situation and tackle it courageously in a well-planned manner

- Om Kokane

---

# INTRODUCTION WINNERS

---

**Heartiest congratulations** to all the introduction round winners for the month of February!!

Every meeting is chance to dive deeper into our personality and assess our strengths and weaknesses. With the help of innovative themes we learn to widen our perspective and take inspiration from everything around us.

It is evident that you all are truly discovering yourselves and consolidating your strengths.

Keep Up the Good Work Buddies!

## CHAMPIONS :

06/02/2022 -

**Miss. Tanmaya Pandit**

13/02/2022 -

**Mr. Abhay More**

20/02/2022 -

**Miss. Vaishnavi Deshmukh**

**Miss. Gargi Gatade**

27/02/2022 -

**Miss. Pranjal Khiste**

## Learnings

1. Reading newspapers and watching news are beneficial in group discussions.
2. Surround yourself with highly intellectual and motivating people.
3. Career in hobbies is a great side hustle. As it gives mental peace and can also be a source of income.

- Ashutosh Vast

# CARE TO SHARE

Buddies who thanked others for the help offered!

Buddies who exchanged BPRs

**Learnings**

1. Political and educational awareness is important.
2. Clarity of career is not only the marks, we face lots of aspects like peer pressure, decision making.

- Shubham Shende

# CARE TO SHARE

Buddies who asked for help from fellow buddies!

**(Neel)** 6/2/2022  
Hey buddies! I need some help regarding practice papers.

**(Siddhi)** 13/2/2022  
Hey buddies! Can anyone of you help me regarding recording and producing music?

**(Om)** 13/2/2022  
I'm writing a novel with our buddies as characters so if you want to be a part of it let me know..

**(Varad)** 20/2/2022  
If any of you know the requirements of SATs, Please connect with me.

## Learnings

1. Get out of the usual way of how things work and instead think out of the box to bring a positive change.
2. Education & awareness must be given more importance, crucially in rural backgrounds

- Pranjal Khiste

## Learnings

1. Content is the key, wherever you are presenting.
2. Corruption won't get resolved by applying one rule or by an individual's efforts. We need to fight as a community.
3. We can learn from our mistakes and failures, so rather than making a taboo of it, consider them as an opportunity.

- Gargi Gatade

---

# ATTENDANCE

---

**Heartiest congratulations** to the buddies who have successfully achieved 100% attendance for rolling months that is December, January and February!

Abhay More

Gargi Gatade

Neel Bhanu

Alisha Sardesai

---

## Buddies with 100% attendance in February

|                 |                    |
|-----------------|--------------------|
| Aadit Paranjape | Vaishnavi Deshmukh |
| Abhay More      | Neel Bhanu         |
| Ashutosh Vast   | Gargi Gatade       |
| Om Kokane       | Alisha Sardesai    |
| Shhloka Bhat    | Avneesh Kadam      |
| Agastya Bhat    | Shreyas Bharadwaj  |
| Siddhi Deshmukh | Tanmaya Pandit     |
| Omkar Joshi     |                    |

### Learnings

1. We should learn to identify good and bad peer pressure.
  2. Research on the chosen topic and gaining knowledge about it is a must.
- Sanika Abhyankar

---

# VISITORS' DAY!

---

**The 20th of February** marked a big step in this direction, BOLDNET's second Visitors Day!! Inducting new buddies has always been one of the bigger goals, to spread the knowledge and experiences we are benefitted from, to include more and more interesting personalities and perspectives into our group, to make newer friends as we go along, and more. It's called a Network for a reason after all!! We had a brilliant introduction round and an even more memorable activity session. All of the Visitors performed admirably well and wholeheartedly participated in the discussions. Most visitors seemed knowledgeable about the topics revealed in "UNPUZZLED", our Problem Solving activity and were able to express themselves quite confidently, as the senior buddies provided them with encouragement.

**Aaryyamaa Singh** - to me the buddies and entire team, we didn't seem like strangers at all, though we had different opinions everyone was friendly..the diversity of opinions made the interaction more solution oriented, we had a wonderful discussion !

**Aman Verma** - I had a lot of fun today, I got to know how to be more social in online meetings and interact..

**Varad Kulkarni** - I liked the activity session the most, I also liked the brainstorming and research done by everyone...

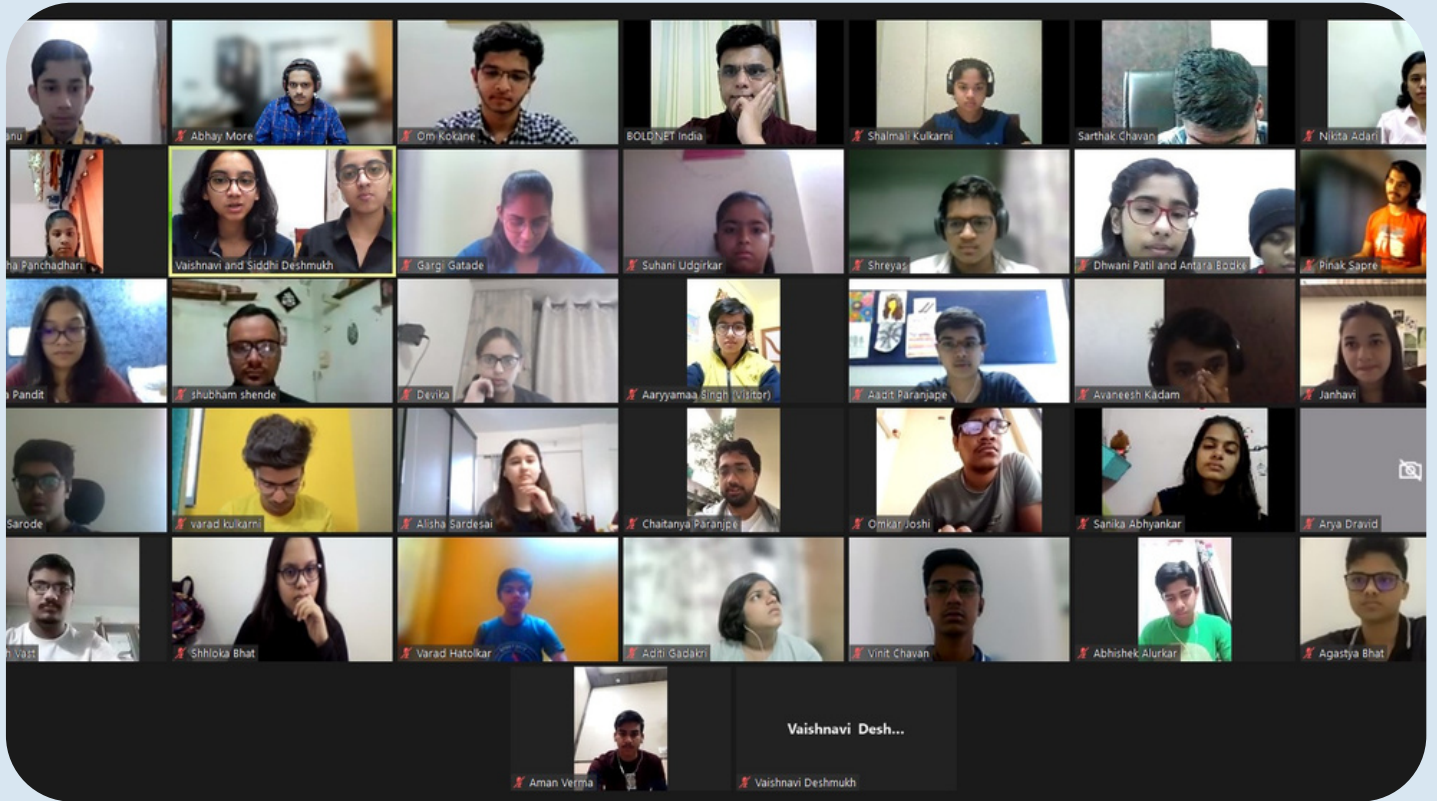

**Suhani Udgirkar** - I enjoyed this session a lot as it was fun interacting with all the buddies... I learnt a lot of things that I didn't know earlier like solving the questions of the activity given by Gargi...

---

# VISITORS' DAY!

---

The Activity was perfect in building their interest to join BOLDNET and to take their careers into their own hands. Even if not, we BOLDNET buddies rest easy knowing we have evoked a sense of alertness and vigilance into the minds of today's youth, which will definitely be an important asset in their journey of career discovery.

# RIGHT BRAINS ONLY

*The world is your colour palette, paint away!*

Pranjal's art

## Learnings

1. It seems impossible until it's done.
  2. Learnt about investment avenues/tools and also about their merits and demerits.
  3. Sometimes peer pressure is good.
- Dhvani Patil

## Sarthak's YouTube Channel

<https://youtube.com/channel/UCmmBQEoqgSGTXzlyViyDjRw>

## Learnings

1. Positive peer pressure brings new opportunities.
2. Know about our career field from every perspective
3. Only interest is not necessary for finding a career goal, we need professional guidance too.

- Nikita Adari

## Swarangi's art

## Vaishnavi's achievement

Vaishnavi Deshmukh cleared her CS Executive Exam(group 1) of Company Secretary Course as declared in Feb 2022, thereby clearing the Executive programme of CS and entering the professional (final) programme.

## Abhishek's Photography

## Learnings

1. While researching on STEM field, I got to know why it is and will be the backbone of the society.
2. Failure is not only a second opportunity; it guarantees that you become 100% stronger on accepting it and learning from it.
3. A hobby as career has its lows and highs, identify it to make it a successful career with a decent income

- Abhay More

## Om's article

### Dystopian Fiction

From movies to books to video games, dystopian fiction has been one of the hottest genres in entertainment. To understand what it means, let's define both, Utopia and Dystopia. A Utopia is defined as an ideally perfect place, especially in its social, political, and moral aspects. This is an idea that describes an imaginary ideal society devoid of poverty and suffering. The Greek coined the expression "utopia" which literally means "no place," signifying how the idea that such a place could not actually exist because it doesn't reflect the basic realities of human nature or existence. Which brings us to Dystopia, which is the opposite of utopia: a state in which the conditions of human life are extremely bad, caused by deprivation or oppression or terror, or all three. A dystopian society is characterized by human misery in the form of oppression, disease, overpopulation, environmental annihilation, or war. Conflicts affecting Syria, pandemics affecting India and Brazil, fire destruction affecting the US can all be considered dystopia.

Conflicts affecting Syria, pandemics affecting India and Brazil, fire destruction affecting the US can all be considered dystopia. Dystopian fiction worlds whether in novels, cinema, comic books/graphic novels, or video games tend to contain many of the same storyline features. Common elements of dystopian fiction include societies engaged in constant wars, and characterized by extreme economic and political class division, mass poverty, environmental destruction, anarchy, and loss of individuality. Dystopian fiction is usually set in the near future to generate urgency about actual current events. What makes dystopian stories and cinema fiction is that it is set in the future, which makes it by definition science fiction. However, this can also look very different than some of the most famous sci-fi movies. This type of fiction speculates what might happen to society if humans don't deal with existing threats such as overpopulation, drastic climate change, authoritarianism, nuclear war.

## Learnings

1. Pre-planning is very important  
In terms of career
2. What are the things we need  
to implement today to Improve  
tomorrow
3. Failure gives you a 2nd chance  
and making the best out of it is  
a success

- Abhishek Alurkar

Arya's art

Nikita's art

## Learnings

1. There's nothing wrong asking  
for help in choosing the career  
that's right for you.
2. When choosing a career that  
is your hobby, make sure  
that you can work as a  
professional in that field.

- Alisha Sardesai

## Alisha's poetry

### ETERNAL

I will hold you close,  
when your sun is unsettled;  
and your sky is unclear.  
When the winds dwindle and your  
heart is nettled.

But a void will remain.  
A void you cast with the moon;  
for you felt the need to make a  
change.  
So you ran away to another too soon.

I will let you pluck my strings one by  
one.  
Since I am a part of your artistry.  
Till the time you learn, I will  
help you set the thoughts in your head  
free.

But the moon would still cry.  
Beyond the cloudy sky in pain.  
For you would have left its side  
to settle down with the rain.

The teardrops trickling down your  
cheeks  
will be washed down by the rain you  
worship now.  
Normalizing your sorrows.  
Making you dodge what you feel  
somehow.

You say the storm is all you need.  
The thunder is everything you feel.  
The darkness cast by the clouds only  
delineates what you are.  
But deep down you know that's not  
what will help you heal.

Eventually the clouds will remind you  
of the place where the moon once hid.  
But would the drizzle listen to your  
clutter  
like the moon always did?

Check out <https://thepanaceaa.blogspot.com/>  
for more blogs!

### Learnings

1. Performing arts requires you to be the best in the field.
2. Every career has its pluses and minuses, prioritize and understand what we need to give importance to.
3. Your vibe attracts your tribe and your tribe decides your vibe, positive environment helps in our decision making and overall development.

- Siddhi Deshmukh

## Abhay's article

Conway's Game of Life is a cellular automaton created by Mathematician John Horton Conway.

Cellular Automata is discrete model of computation studied in automata theory, cellular automaton is a collection of "colored" cells on a grid that evolves through a number of discrete time steps according to a set of rules based on the states of neighbouring cells. The rules are then applied iteratively for as many time steps as desired.

Game of Life's evolution is determined by its initial state and requires no further interaction, basically a zero player game. This Game abides by some set of rules depending on the state of neighbouring cells which Conway himself came up with, those are:

(The state of cells is either alive or dead, on or off, 1 or 0 as in how programmers think of binary digits)

1. Any live cell with two or three live neighbors survives(lives off to next generation)

2. Any dead cell with three live neighbors becomes a live cell(reproduction)

3. Any live cell with more than three live neighbors dies(overpopulation)

4. Any live cell with fewer than two live neighbors dies(under population)

The initial state has to be defined and is considered as the seed of the system. The next generation/state if complies with the rules can give rise to new alive cells or it will be the end of the system.

As a learning I also created this system using c++ language and SFML Library called More-Game of Life, it has a cool UI, some buttons to interact, such as start/pause to control the system, randomize button to randomly assign initial state to the grid, and some pre-loaded formats created by other mathematicians which beautifully shows an awesome simulation.

## Ashutosh's article

I'll be telling you about all my ideas and innovation that I have found out in the past year. As we all know our brain ☒ has two parts. Similarly I have divided my Entrepreneurship into two parts. First part is about business, Finance and commerce. While the second part is about Innovation, Technology and Science. So in the first part I came up with a Start-up Idea called 'PAMIVE' which means Paper, Milk and Vegetable.

It's a B2B Platform, Which delivers daily essentials to the customer at their doorstep. Now I have came up with two more idea's which are PAMIVE Rental and PAMIVE Housing. Now let's come to the second part, In this I have came up with a lot of innovations that are:-

1) HUV (Human Underwater Vehicle) Which is a machine through which you can travel anywhere and anytime in the sea. Similarly I have also came up with HOV - Space and HOV - Sky through which we can travel in space and in sky.

2) (Magno - Hand) means you'll be using a small device which you can

wear in your hand and control all the electronic devices without a remote. You can switch on and off your TV, Fan ,lights etc with the help of your hand and you can also use voice command through this device.

3) (Data Rechargeable Cars) means currently we are seeing cars which are running on Biofuels, Hydrogen and Electricity but all of these requires huge space and also have certain limitations. So I thought of cars which will be running on data as our Phones.

4) (SKY HOME'S) as you all know currently there is a lot of traffic, pollution and noise on the surface. In order to take a relief from this I thought of sky home's which will be positioned in sky. Which will be stabilize by using appropriate air pressure also they would be having emergency parachute incase if needed. Also you can move it from one place to another.

5) (Mobile Eye Slider) means a device which you can wear as a spectacle or a lens and control everything on your phone. You can type through your eyes and also play games.

# WORD OF THE WEEK

6 Feb

Neel Bhanu

**Word: Agathokakological**

Meaning: *to be composed of both good and evil.*

Example: *Ravan was an agathokakological character of the Ramayan.*

13 Feb

Om Kokane

**Word: Infatuation**

Meaning: *It is basically like having an intense passion or admiration for someone or something.*

Example: *One look at her was all it took for him to be entirely infatuated.*

20 Feb

Tanmaya Pandit

**Word: Clamor**

Meaning: *A loud and confused noise, especially that of people shouting.*

Example: *He raised a hand to still the clamor.*

27 Feb

Neel Bhanu

**Word: अनवट**

Meaning: *कमी अथवा माहित नसलेलं (Lesser or not known).*

Example: *त्या गाण्याची चाल अनवट होती. (The tune of that song was less known to me.*

## Learnings

1. How to solve your confusion about your career.
2. Be in a positive friend circle other than being in a friend circle which thinks negative.

- Avaneesh Kadam

## Learnings

1. Professional help is needed in our career path.
2. Even the different views of all the members on respective careers.
3. How to mitigate risks in our career path.

- Aditi Gadkari
