# THEME OF THE MONTH

---

*"Real Leadership comes from the quiet nudging of an inner voice. It comes from realizing that the time has come to move beyond waiting to doing".*

"Find out what you like doing best, and get someone to pay you for it."

The Theme for June was Career Development. Even though Career Development is what we undertake broadly here at BOLDNET, but working only towards this topic is vital too. It is to dive deep into one's chosen career path. We get to research our job profiles, the soft and hard skills required for our careers, colleges that we can take admission in, etc. It is a broad umbrella term that encompasses a lot of the steps that we can take.

We saw some Introduction Themes focusing extensively on Career Development, which really helped us connect with our future plans. We saw many different kinds of Activity Sessions this month which gelled with the Theme of the Month, making them enjoyable and beneficial at the same time. We also started our very own career based talk show on our YouTube channel, which was spearheaded by our Chapter Mentor. A super detailed session, focusing on one career path in every livestream.

# JUNE WRAP UP

---

"If opportunity doesn't knock, build a door."

Career development is without a doubt, a very important aspect in our working life and personal life. In anyone's working life, none of us want to stay in the same job and the same position forever. By having a career development plan we will be able to reach our goals that we have always dreamt of.

We adorned this month with our 100th Meeting Celebration, which was a grand success. Our Theme for this month added a different sort of luster to it, as Career Development is essentially what BOLDNET is all about. The earlier you know where you're going in life, the quicker you can take those decisions, and in doing so become a stable, independent citizen.

The Introduction Coordinators yet again gave absolute proof of their creativity with their extremely enriching themes for June.

Our group continues to expand as we add more and more gems to this necklace, we added one more buddy, and on the occasion of the 100th meeting too, no less. Welcome, Sameehan Divekar!

We had rather creative and artistic Activity Sessions this month, Picture Perfect, where all the buddies drew what Career Development looked like for them, and then wove a story out of it. Some of the buddies staying in and near the Pune area were also part of our Cleanliness Drive.

We also celebrated our 100th meeting on this 19th, which was the biggest and most grand occasion here at BOLDNET. In the Presentation Round, we saw about what BOLDNET was all about, and its journey to reaching where it is now. Where we are now. We also saw a funny and wholesome video of an interview of all the buddies. We also had our very own Talent Show Video for the 100th meeting, put together by some of the talented video editors at BOLDNET.

This is a 12 by 12 inch model of my dream room! I had taken this up as a summer project.

I would like my room to be peaceful with darker walls and wooden furniture giving me a sense of comfort after a long day and thus this model reflects my ideal room.

The main walls are made with foam board and Each little furniture piece has been made specifically to fit into the model!

The room comes equipped with a tv, fireplace, bed, cupboard and study table!

If you look closely into the model each wall shows one principle of design! The feature wall shows emphasis, the side walls show balance and the roof shows movement!
