

ORANGE COUNTY RESCUE MISSION

Serving the Least, the Last, & the Lost

March 1, 2018

Dear Kevin,

Thank you for presenting your Active Shooter Response training at the Orange County Rescue Mission's All-Staff Meeting last month. The training was extremely informative and left the staff feeling much better equipped to respond calmly and quickly in an active shooter situation.

As you so aptly stated, "this is not our grandma's America" anymore. These are things we need to be aware of in today's world and we can no longer ignore the realities of our society. Because of this training, we do not need to live in fear, but rather can prepare ahead of time with a plan, should a worst-case scenario situation arise.

The work that you are doing through Lives Worth Saving is incredibly important. I appreciate you taking your time to come share your knowledge with the Rescue Mission staff. This training has been an invaluable support to our ministry, and though I pray we never need to put it to use, we all feel much safer knowing we have been well-trained.

Thank you again Kevin!

Sincerely,
