

KINGDOM LIFE ACADEMY

October 29, 2018

To whom it may concern:

On September 28, 2018 Kevin Brown came to Kingdom Life Academy to conduct an Active Shooter Professional Development training. Prior to his presentation, he conducted a thorough Emergency Response Policy specifically designed for Kingdom Life Academy and Calvary Chapel RSM. With coordination from the pastoral staff and school administration, Kevin developed a plan for implementation to ensure maximum safety in the building and surrounding outdoor area. His recommendations for safety improvement were reasonable, yet powerful in making the building safer and equipping the staff with tools in the event of an active shooter situation.

The level of professionalism, detail and organization was exceptional. The in class training was comprehensive and detailed. The staff left the training with a wealth of knowledge and empowered to deal with an active shooter scenario on the campus.

Kevin's training was informative, empowering and professional. Living in today's world, trainings like this are extremely necessary. Kingdom Life Academy's staff is well prepared and equipped to handle situations that come up because of Kevin's training and Lives Worth Saving.

Sincerely,

Renee Rose, Principal
Kingdom Life Academy
