

To whom it may concern,

May 20, 2019

Edgewater Preschool held an active shooter training for our staff. Our center serves 75 families with children ages 18 months to 5 years old. Based on current events, we felt it necessary to offer our staff a training that would help us raise awareness to the issue and improve our chances in case of such an event. Kevin Brown was very knowledgeable and instructive with the information he presented. The training included statistics, identification of active shooter scenarios, workplace and public survival awareness and many other techniques for survival if ever in an active shooter situation. Kevin provided a thorough threat assessment of our school designated to our specific needs. The assessment includes detailed plans including a map of our center to deter a possible active shooter situation.

We recommend this training with Kevin Brown for people to become aware of their surroundings in case one may happen upon this situation. Our staff felt informed, cognizant and had a stronger sense of preservation after the training. We strongly believe that the information shared will increase the rate of survival in any active shooter situation.

Sincerely,

Alan and Cristiane Foster
