

*INTRODUCING*

# *DATA WORX*™

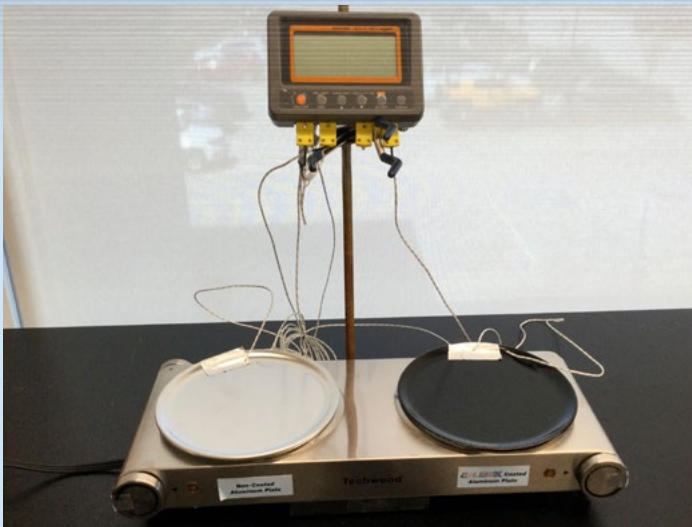

## Energy Savings & Corrosion Protection

**For Precision Cooling Applications**

**Transformative Graphene-Based Coating  
To Expedite Heat Transfer**

**PATENT  
PENDING**

This hot plate demonstration shows the properties of Data Worx™ to transport heat. The hot plate simulates the tube bundle and aluminum plates the aluminum fins of an air-cooled coil of a thermal management system.

Temperatures are monitored on the hot plates plus the non-coated and Data Worx™ coated aluminum plates.
